Fall, 2004

Now a word from ARMS old timer, Ralph Ohling, WB7OOL

I was born July 7, 1923 in Seattle, Washington, but I didn't like the city very well so I moved away when I was about five months old, first to Spokane, Wash., then, in what order I am not sure, to Chicago, Cincinnati, Philadelphia and back to Spokane, all by the time I was two. By the time I was three we moved to Portland in good old Oregon where I grew up going to grade school and high school.

When I was still seven years old, I was baptized and taken into membership of the Methodist Church without any instruction. I had learned to pray when I was only five and was taken to Sunday School from that age on.

When I was in about the sixth grade I grew fascinated with chemistry, having received a chemistry set for Christmas. In high school, I became interested in track and competed on the track team running the half mile or one mile in the spring and cross country in the fall. I decided when I left high school to study to be a chemical engineer. I enjoyed the course and had a solid B average at Oregon State College (now OSU).

Pearl Harbor was bombed during my freshman year, and the draft board sent me notice

ARMS Motto

Therefore, as we have opportunity, let us do good to all people, especially to those who belong to the family of believers.
Galatians 6:10 (NIV)

From the president's desk:

Is There a Future for ARMS?

In March of 1957, a group of men gathered at the Philadelphia College of the Bible in Philadelphia, Penna. to form the Amateur Radio Missionary Service. Their goal was to provide communication and assistance to missionaries all over the world. It served its purpose well for many years until the new electronic and digital technology made communication by amateur radio less necessary.

For nearly fifty years ARMS has grown in number despite the change in its role. However, those who are most active in the ARMS nets are of the older generation, including your president. Is there a future for ARMS? What will happen to it when we grandparents pass from the scene?

I believe we need to give some effort to recruiting younger members to the organization. It is more difficult for those who are employed to participate in the mid-morning nets, but early mornings and Saturdays are possible. Maybe since the nets function more as Christian fellowship, we could try initiating some evening nets which would enable working hams to participate.

What are your ideas? How can we insure that ARMS will survive and continue to grow? Do you know of younger men and women hams who would be interested in being a part of ARMS that you could encourage to join?

The Lord has blessed the organization from its beginning, and I am confident that He will continue to do so, but we must all do our part to assist ARMS in its service for the future.

One further request: Our *BEAM* editor would like to be relieved of responsibility for the ARMS website. Is there someone with computer and internet expertise who would be willing to update the website and take responsibility for it? If so, please let Dave know as soon as possible. Thank you.

—73 and 99, Gerry Brunk, K4RBZ

The Beam is published twice a year to provide information and inspiration for the members of the ARMS Christian Fellowship Group. To submit material for *The Beam*, contact the editor, Dave Shortess, W7PTL, at 95 Prawn Rd., Port Angeles, WA 98363, or dshortess@tenforward.com. (E-mail submission is preferred.) Deadlines are 3/15 and 9/15.

Regular membership in ARMS is open to any licensed radio amateur who can subscribe to the ARMS doctrinal statement. Further information about membership in ARMS can be obtained by checking the ARMS web site, at my.tenforward.com/arms, or from the secretary-treasurer, Ora Gifford, KE7BF, 708 Hillcrest, Grandview, WA 98930.

Annual dues for membership in ARMS are \$8.00. Active missionaries are exempt. The dues year runs from June 1 through May 31.

Check out our ARMS web site:
my.tenforward.com/arms

my sophomore year, so I joined the Army in the enlisted reserve corps which allowed me to finish my sophomore year. In June of 1943 the Army called me to active duty, sending me to North Camp Hood in Texas. After basic training in the hot Texas climate, I was sent to Princeton University to study Mechanical Engineering.

After six months the Army was in need of more combat troops so we were sent to Camp Carson, Colo. to be melted into the 104th Timberwolf division. While we were still in combat training the invasion of Europe took place. After a furlough, the outfit sailed for Europe with many of us aboard the George Washington with about 7400 of the division. We went into combat in October in the Netherlands attached to the First Canadian Army. We were moved after several weeks over to Germany to replace the First Division.

In the meantime I developed diarrhea and asked the aid man for medication for it. He said he had none, and he sent me to the Battalion Aid Station. To my surprise the medical officer sent me to the hospital—he knew I had that trouble back in the States and once in Cherbourg. I was moved around eventually to a third hospital which the Nazis hit with a robot bomb (V-1). I was in a part of the hospital far enough away from the main force of the explosion though I was cut up from flying glass and little parts of the building. Having been treated by a medical officer, I earned the Purple Heart (five more points to get home on later).

They moved us to another hospital

where the Chaplain was on the ball. He left a booklet on each bunk that had “How to Begin a Christian life” and “How to Live a Christian life” with a spot to write in your decision. I read the booklet and wrote my name in the little box.

They sent me back to combat duty, and I arrived at my outfit in the basement of a German house that was much destroyed. The basement was built as a “Luftschutzzimmer” (air raid shelter), but I soon had the “GI’s” again from front line eating. The sergeant sent me back to the medics and to division medical center. They filled me with a solidifying medication and were about to send me back up. I got angry and told them I would just be back again if they sent me to my outfit. They changed their mind

preacher’s son, left the room and the other whose name was appropriately Paul came over to me, and he said to me, “How about you?”

I pulled out my little booklet and showed it to him. He said, “But you don’t seem sure.”

I replied, “That’s easy, I’m not sure.” He then carefully explained the way of salvation, and we knelt and prayed together. He urged me to write home and tell my mother. I did so. That was January of 1945.

After both wars were over, I was backslidden although I carried on outwardly. But the Holy Spirit convicted me in a way that left no doubt of my need. I thought there was no way back, but God showed me that my repentance was genuine. God also called me to preach.

Photo by N7AAG

Ralph, WB7OOL, and Maxine Ohling

and I was placed for a time in a rear echelon group.

Not too long later they sent me through a narcotherapy center where they actually woke you up to give you your sleeping pill. They sent me back to France where I was placed in a Signal Corps depot company.

On my way back I met a couple of GIs who witnessed to me and both testified to having been saved. They were both Methodists! The one, a Methodist

It was a change for me now to leave my chemistry behind and finish my two years of college majoring in history. It was hard for me as math, physics and chemistry were my best subjects, but I learned a lot of helpful things in history and also scored good grades.

A professor at the liberal university I attended began to try to explain away some of the Bible’s miracles. I went back to my room and to prayer. God led me to 1 Corinthians 2:1-5; after reading it I said, “Lord, I believe it from Genesis to Revelation.” 1 Corinthians 2:5, “That your faith might not stand in the wisdom of men but in the power of God,” became my verse.

InterVarsity Fellowship was a help to me, also. I ran on the track team both

—Continued on the next page

Ralph, WB7OOL, always enjoys a joke, and is a past master at remembering them and telling them. Puns are his favorites, and he has gotten off some pretty bad ones. Recently, Chuck Winter, N7AAG, and his wife, Marilyn, paid Ralph and Maxine a visit. Said Chuck about Ralph, "Ralph's recall, whether of WW II events, his years in the pastorate or large portions of scripture, is sharp. His faith in Christ is still as vibrant and real as when 'he first believed.' He has a wonderful sense of humor that more than finds its match in Maxine's quick wit." I guess they make quite a pair! Below is reprinted a short piece that Ralph sent me some time ago. I think it is especially appropriate to include with this article about this great ham (on and off the stage), inveterate comedian, and dedicated man of God. —Ed.

Changes

You know, things certainly do change. Everything is further away than it used to be. It's twice as far from my house to the bus-stop now, and they've even added a hill that I've just noticed. The bus leaves sooner, but I've given up running after it because they go faster than they used to.

Seems to me they are making staircases steeper than in the old days. The risers are higher and there are more of them because I used to make two at a time and now it's all I can do to make one step at a time.

Have you noticed the small print they're using lately? I have to squint to make out the news. I really don't need glasses, but it's the only way I can find out what's going on unless someone reads to me. But that isn't much help because everyone seems to speak in such low tones. I can scarcely hear them.

Even the weather is changing! It's getting hotter every summer, and the rain is wetter. The windows they build now make drafts more severe.

People are changing too; for one thing, they are younger than they used to be when I was their age. On the other hand though, people are much older than I am. I realize that my generation is approaching middle age, but there is no reason for my classmates to be tottering blissfully in senility.

I ran into an old school chum the other night and he had changed so much he didn't recognize me. "You've put on a little weight, Sam," I said. "It's this modern food," said Sam. I got to thinking about poor old Sam this morning while I was shaving. I stopped a moment and looked at my own reflection in the mirror. You know, they don't use the same kind of glass in mirrors like they used to.

—Ralph Ohling, WB7OOL

Continued from previous page—

years mostly in the half-mile, and I was even captain of the track team my last year.

Rosiland Rinker, our Intersarsity Fellowship director, advised that I go to Asbury Seminary. It turned out to be an excellent choice. There I earned my B.D. which later turned into an M.Div. I was fortunate to be there when a spontaneous revival hit the Asbury College campus in 1950. I graduated in 1951 and came back to Oregon where I was sent to serve the McFarland and Alpine Methodist churches.

I was a bachelor pastor the first three and a half years before Maxine Larkin kindly consented to become my wife. We were married in Eugene on March 26, 1955. I was 31+ and Maxine was

27+, so our son, Tim, was born about ten months later. We teased about naming him Isaac as a child of our old age, Hi.

We ended up serving 10 different churches five of which were two point circuits. All were in Oregon as far north as Rainier on the Columbia River, as far east as LaGrande, and as far south as Gold Hill. I retired from the full-time ministry in 1987 and moved to Salem, Oregon. Then, in 1996, we decided to move again, first to Newburg, up near Portland, and finally to our daughter's home in Gresham, east of Portland.

While serving in Amity I heard a missionary tell how he got help while in Honduras by way of ham radio. I then went about getting a license as a Novice in November of 1976, got my General in December, 1977 and my Ad-

vanced in April, 1978.

Julian Pike, W7SDS, introduced me to the ARMS Net which I have enjoyed ever since. I ordered a phone patch from Heath Kit to match my good old HW-101, and I used to help missionaries mostly through the Halo Net, up until recently, when e-mail has mostly taken over.

Maxine and I attend the Valley View Evangelical Church in Gresham, as most Methodist pastors in our area are not Bible-believing leaders. During my years as a pastor I had the privilege of having missionaries from World Gospel Mission, OMS, and Wycliffe speak in our churches. Occasionally there were good Methodist missionaries available. To help missionaries from the pulpit or by ham radio was always a joy. — — —

Missionary reports

Gerald Pieper, XE1MP, Guadalajara, Mexico

Greetings from Guadalajara, Mexico. The weather here is just great, if you don't mind a few showers. Temperatures average 60-80. Attendance is up in all our Churches. We had two baptisms in Etzatlán.

We're still working on the new temple in Ameca. All major projects are completed. We now have an amplifier. Pastor William Sierra says he'll personally put in the concrete sidewalk. Lots of minor jobs need to be done on the temple.

Dina Virgen plays the organ and the acoustics are just great for the organ. Bible School student Noemi plays the keyboard. Her sister, Marisol, also a Bible School student, plays the guitar.

Bethel Baptist Church of Trapiche is expanding. They have started a new children's addition. They have a lot of young people that have been having classes outside. They are to take over the former children's building.

On July 14, I reached the age of 85. My health is good, but I can tell that I have had a lot of birthdays. People here ask me for my secret of a long life. Here's what I tell them:

Esto es muy facil:

Primero necesitas ser Cristiano. Un Cristiano puede vivir hasta 120 años.

Segundo necesitas obedecer las leyes de salud.

1- Absolutamente no puerco (Lev. 11:7).

2- Toda la grasa es male.

3- Cuidado con la margarina porque lo mas duro es veneno.

4- El queso may duro es veneno igual el blandito con cuidado. El queso cot-

tage esta bien.

5- El refresco obscuro (pepsi y coca) puede mater ya que puede taper las arterias.

6- La leche con crema. Muy grasosa mal.

7- Helados de crema. Muy mal.

8- La mayoria de los aceites para mesa son malos. El adecuado es el de oliva.

9- Usa juga de limon en la comida (poca sal).

10- Leche descremada, es la adecuada.

11- Chatarra como papitas o cheetos muy mal. Super mal.

Si un bebe es muy gordo debe user leche descremada, un huevo tiene 184 gramos de colesterol mas que el puerco. Todas las verduras son super buenas. Cuidado con los doctores, resultan mejores los encargados de las tiendas de vitaminas que los mismos doctores. Las vitaminas multiples no estan completas les faltan muchas. La zanahoria tiene mucha betacarotena, el limon mucha vitamina C.

Desayunar con avena, y comer no mas de dos tortillas. El pan blanco es malo pero el integral muy bueno. Todo lo refinado es malo (azucar, trigo). La granola es muy buena.

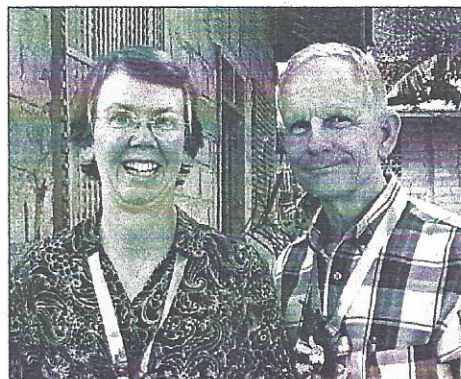

El polio sin piel, la piel es mala. El tabaco, vino, tequila cerveza, es pare ignorantes, necios. La mantequilla no sirve. Pero los jugos son muy buenos. Jugos de citricos son muy buenos.

I de Tim. 4:8. Porque el ejercicio pare poco es. Si comiste frijoles no necesitas carne ya que la carne es bendicion de Dios, no vamos a comer carne en el milenio, ya que tiene colesterol, con poca carne es mucho.

—Gerald Pieper, XE1MP

Leon Winter, DU/WX6I, SIL, Bagabag, Philippines

Have you ever thought about who uses the Bible translations that Wycliffe personnel labor over for so many years? Of course, you've been aware of the indigenous speakers who are the labor of love for the translation team. Giving God's Word to these people is the first

focus of our ministry. But there are other groups that share an interest in seeing our work of Bible translation progress to completion.

One such group is Campus Crusade for Christ who is behind the Jesus film project. The Jesus film has been translated into more than 850 languages. Over 5.4 billion people have seen or heard the Jesus film. Wycliffe partners with Campus Crusade to translate the Jesus film into many languages. These efforts have met with tremendous results. To date, Wycliffe has produced 74 Jesus films and 201 Luke videos in the vernacular languages.

Networked? What does that mean? We live in a high-tech age. Believe it or not, high-tech has even come to our Bagabag school. For several years, our school has had some computers to use, but they could not share data or printers. For the past couple of weeks teachers are enjoying having this technology available in the classroom. Additionally, this high-tech step has given them opportunity to train their students in how to safely use the internet for research.

—Continued on the next page

—Missionary reports continued

Yes, all this in such a faraway corner of the world.

The network wiring and hub were installed the week before school opened. During the first week of school, I had the fun of getting six computers and three printers "talking" to each other. Some minor bugs remain, but the system is proving its usefulness.

There is no greater joy for a translator and those who support the work of Bible translation than to see the people gathered eagerly around the tables where the New Testaments were being sold. What a thrill to see them sit right down and begin to read God's Word in their language and watch the look on their faces as they realize they are understanding what is written there. Scenes like these are why so many of us have dedicated most of our lives to the work of Bible translation. There's great joy in doing that which gives joy to our Lord.

—Leon, DU2/WX6I, and Sally Winter

**Dave Newell, WA4DUP,
Source of Light Ministries,
Madison, Georgia**

Thank you so very much for praying for us while we went to Peru. We stayed busy from 7:00 a.m. until midnight most of the time. We, along with 46 others, helped to build an addition to an orphanage, had meetings in the church, went to schools with Gospel presentations, and gave out 2,500 Spanish New Testaments and over 15,000 SLM Spanish tracts. We also carried 6,000 Spanish lessons to the SLM Peru office in Lima.

Because of the large number in the group, we used a tour bus which was great but a real challenge when it came time to load and unload luggage, tools, people, and literature. Anna Gay had the opportunity of leading a lady to the Lord in a park. Our team member had given her a tract, and she had questions, but

the others could not speak to her in Spanish. Her heart was prepared, and Anna Gay spoke to her in fluent Spanish. She was a fortune teller whose future is now secure in the Lord Jesus Christ.

Our hearts were so touched to see people, to whom we had given tracts and New Testaments, reading them right where they were—on the street, in their shops. They begged us for more—but we had none left. That hurt.

*—Dave, WA4DUP, and
Anna Gay Newell*

**Ben Watson, KBØOUC,
Source of Light Ministries,
Madison, Georgia**

We have had a busy summer. We left Madison July 12 to participate in two conventions. The first was in Omaha, Nebraska where The Fellowship of Evangelical Bible Churches held its annual convention. It was good to reconnect with many friends and to re-explain that Source of Light Ministries is not primarily a ministry to the blind; that the blind ministry is only a small part of an over-all world-wide ministry.

From July 25-29 we attended the 51st annual meeting of The National Church Conference of the Blind which met in Kansas City, Missouri. At that convention, as at the other one, we had a display and there we gave away a lot of material, especially braille material. Two folks even requested to take courses by email.

Probably the biggest highlight was not a really very pleasant experience. A friend, Cherry Dyer, had her fourth stroke in three years. She was taken to the hospital in Kansas City where she died two days later. Because of the flexibility of our schedule we were able to stay and provide support.

It was wonderful to see people rally around the Dyers. First, after the banquet, an offering of over \$800 was received. Then the management of the hotel allowed us and Cherry's husband,

Roger to stay at the hotel for \$25.00 per night. (Regularly the rooms were \$150.00 per night.) Later we were informed that our stay would be free for as long as we needed since someone had come forward to pay for it. As you can imagine all of this made quite a positive impact on the workers at the hotel. It helped me see the practicality of Jesus' words, "By this shall all men know you are my disciples when you have love one for another."

Back home again the work load continued apace. Right now I have booklets to be sent to a home for the deaf-blind in Los Angeles. Courses are being copied to be sent to Ghana, we're talking to a school for the blind in Sierra Leon, West Africa, as well as a school for the blind in Togo. This means lessons in French. Yesterday a letter was received asking for materials for a prison and a home for mentally handicapped and blind folks in California.

To add to all of this I have been asked to become the coordinator for all of our international ministries. I would have said "No," except we are so short-handed in our office that we just simply don't have anyone else who can do it. Hopefully at some point someone will come on board to whom I can pass that ministry.

This it may sound like all we've done is work. While we've done a lot of that, we've also had some fun along the way. The weekend of August 27-29 we made a trip with our baseball team to Columbus, Georgia where we played and beat the team from Country's Barbecue 2 to 0. Because the next night was the 24th annual Midnight Express run we decided to stay and participate. It so happened that I had to withdraw from the race, which for me would have been a walk.

August 29 to September 1 our church participated in a county wide evangelistic crusade held at the Morgan County High School football stadium. Over 700

—Continued on the next page

Continued from previous page—

decisions of various kinds were recorded. Please pray for the follow-up of this crusade.

What's next for us? We're scheduled to leave here September 29 and return either the last week in October or the first week in November. We'll have services in Missouri, Nebraska, Kansas and Michigan. We're looking forward to a good time of ministry and fellowship.

In Christ,

—Ben, KBØOUC, and Gladys Watson

Don Jensen, KC7WV, Wycliffe Bible Trans., Catalina, Arizona

"A cord of three strands is not easily broken." (Eccl. 4:12). The Lord Jesus Christ, Don and Sharon, braided together in a cord of strength—the foundation of our marriage and ministry.

The wedding: Our beautiful church wedding on May 15th brought together our families, friends and co-workers in a wonderful show of love and support. Our children were our attendants, and our grandchildren all had a part in the wedding too. Sharon's 89-year-old dad walked her down the isle. Pastor

Morehouse gave a strong salvation message woven around our theme verse (above).

Our combining: Combining households is a process of cleaning out Don's "stuff" in closets, cupboards, and drawers so we can fill them up with Sharon's "stuff"! It shouldn't take us more than a couple of years to do this!? Selling the "desert" house: One of our biggest concerns at this point is selling Sharon's house, which is 40 miles away—an hour's drive one way.

Our ministry: Don has recently been busy with new missionary member orientation regarding financial matters, i.e., wills and other legal documents necessary for their assignments serving with the Mexico Branch. Analysis of financial reports and other financial matters continue as a matter of routine. Sharon attends to the daily incoming and outgoing mail for over two hundred missionaries and associates. A typical example: a Bible translator in Mexico was expecting delivery of an important computer part to repair his broken computer. Sharon had to coordinate getting the part from Catalina, Ariz. to Mexico with someone going to Mexico City as soon as possible. Keeping hundreds of pieces of mail on track is no easy task, espe-

cially when folks are constantly moving around!

Our thanks: We are so very appreciative to you many partners who so faithfully support us with your prayers and gifts making our ministry possible. God bless you!

—Don, KC7WV, and Sharon Jensen

Ray Rising, CP6WV/ K4LWJ, Bolivia

Thank you for praying for Ray's trip to Peru and Ecuador. He made some good contacts for help with the Amazon Radio Project. The Pan American Mission in Peru will be running this station, but they need to update their legal status before the paperwork can be submitted for the license for frequencies. This will be done during their general assembly in August. All involved want all legalities settled before work can begin. HCJB in Ecuador is willing to raise up to 50% of the cost for this project.

Continue to pray for the Amazon Radio Project and two other radio stations pending here in Bolivia. Licenses have been applied for, so now it is "Wait." Seems we do a lot of that!

Praise that the 40 radio programs in Chiquitano language have been completed and will be aired soon. Pray for desire, stamina, time and content for more programs to be made by Miguel. Pray that others will be able to help him in this area as he has many obligations that "spread him thin." Also pray that these programs will be "spiritual food" to the Chiquitano area.

Praise for Lucy (age 14), one of Ray's fatherless girls that she has received Christ. Pray for Carla (age 14), the first girl Ray took on to give a father image to. She is going through a rebellious time with her mother and two sisters.

Thank you for your interest and support of our work to reach isolated people with God's Word.

Serving together,

—Doris Rising for
Ray, CP6WV/K4EQY

Don and Sharon, front and center, and their wedding party

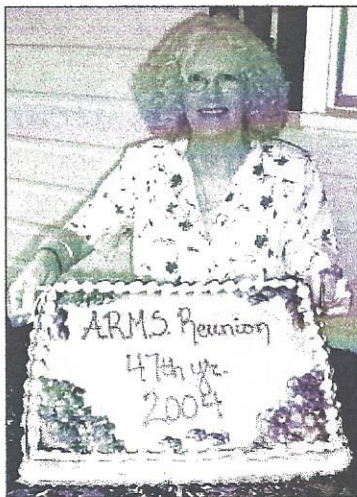

Section Reports

Eastern Section

The Eastern Section of ARMS held its annual summer picnic in Syracuse, New York on July 31. The get together was hosted by Norm Hinkle, W2NNJ.

The day began with a tour of Faith Heritage Christian School, which Norm helped to found. Headmaster Dean Whiteway reviewed the history and purpose of the school. He said Christian schools are coming under increasing pressure to comply with certain state laws, which are clearly against biblical teaching.

Next, we enjoyed a picnic at Norm's house with good food and great fellowship. The highlight of the meal was a beautiful cake with the words "ARMS Reunion 47th yr. 2004" (see photograph above).

Cindy, XYL of WA3UVP, with her special anniversary cake

After lunch we toured Christian radio station WMHR. Once again Norm had a large part in its founding. Board chairman Clate Roberts gave a tour of the studio and transmitter facilities. He said over the years many have come to know

Christ through the ministry of the station. WMHR also operates a station near the Canadian border. Since Canada does not allow Christian stations, this station has a tremendous ministry north of the border.

Those present at the gathering were: Mike (K7PTL), Paul (K2QCG) and XYL Jenny, George (N2LAH) and XYL, Bob (W2YIK) and XYL Helen, Norm (W2NNJ) and XYL, Joe (WA3UVP) and XYL Cindy, Al (K2CAC) and XYL Esther, Duane (AA2JI), Corky (WA2KKF), and Larry (W2PT) and XYL Pat.

Eastern Section Director W2PT challenged the group to renew the service aspect of ARMS. It was suggested that we keep the missionary section of the prayer letter up to date with more specific requests. Mike also suggested the

Bob, W2YIK and Eastern Section director, Larry Hodge, W2PT

use of EchoLink to keep our missionary contacts current.

It was great to enjoy the fellowship of believers as we saw what the Lord is doing through Christian education and Christian radio.

—Larry Hodge, W2PT,
Eastern Section director

Midwest Section

The Midwest Section of ARMS held its annual convention on Saturday, August 14, 2004 at the QTH of section director, me, Arnie, WAØDFT, and XYL, Vicky, at our home in Mankato, Minnesota, beginning at 8:59 a.m. I had my stealth antenna set up. There was great wonderment with mouths wide open as I demonstrated the antenna with its Christmas tree light bulb wired to the feed line, winking and blinking as I spoke, while the SWR registered 1:1. Those present were able check into the 20 meter ARMS net using that antenna.

After some real good eyeball QSOs and some refreshments prepared and served by Vicky, Don, KØOAV, and I went to the Mankato Airport to pick up Neil, KØLHJ, who was flying over in his own plane. On the way to the airport, Don remarked that he thought that

—Continued on the next page

Front row: Jen, XYL of K2QCG; Mike, K7PTL; Al, K2CAC; Esther, XYL of K2CAC; Larry, W2PT. Back row: Clayton Roberts Director of the Christian Radion Sation; Paul, K2QCG; Pat, XYL of W2PT; Duane, AA2JI; Corky, WA2KKF; Joe, WA3UVP; George, N2LAH; Sharon, XYL of N2LAH; Norm, W2NNJ. Thanks to Cindy, XYL of WA3UVP, who took the photo.

the airport was over there, not the direction we were going. I told him we were taking the scenic route, which I figured sounded better than the fact that I had turned too soon!

We then went to the Old Country Buffet for our lunch, meeting and program, with only eleven members and two guests present. Good ol' Karl, WAØTFC, had a good word of encouragement for us. He said, "We don't have quantity, but we sure got quality!"

At the business meeting we re-elected all the same officers, with the exception of secretary. Elaine, WAØEJA, who, after serving for 12 years, prayerfully made the decision to step down. We were unable to elect someone for that job. Any volunteers? Elaine sent me her record book, and as I sat down and read it, it was just like reliving those twelve meetings as to who, what, where, and other data. It was so detailed I could see it in my mind's eye. What a great job, Elaine! Thank you, and God bless you from all of us.

The meeting for 2005 was set for Saturday, August 13, following the same schedule, and at the same location, starting at 8:59 a.m. at our place here in Mankato, and finishing up at the Old Country Buffet. Please mark your calendars, as no notices will be sent out.

The decision to move the Midwest 75-Meter Net frequency was discussed, but it was decided that we should stay at 3.905 Mhz, plus or minus the QRM.

The question of our hosting a national ARMS convention was brought up. Gerry, K4RBZ, our ARMS president, has sought input from various groups about this. Our problem is that we have only seven or eight check-ins on our

Saturday morning net out of 41 Midwest Section members as listed in the 2004 ARMS Directory. I recall in 1967 when we had the Midwest Section meeting as a picnic at our place here in Mankato, we had 53 people present. Now, we are down to 11 members present. We have lost so many to the Glory Net, old age, poor health, moving away and not being

willing to drive the distance. Also, we do not have a decent place to hold a national convention, like a college. Gerry has a college, but not many people in his area to help, so we didn't invite ourselves to his QTH!

One final note. On Saturday, March 22, I had the pleasure of a short QSO with

Harley, KØLNJ, before he checked into the Glory Net five days later. (See Silent Keys on page 13.) He sure was a "Lovely, Nice Joe." Our sympathies go out to the family and especially to his son, Keith, WAØJGT.

—Arnie Kopischke, WAØDFT,
Midwest Section director

The Stealth Antenna System

If any ARMS members have questions about the stealth antenna system, so they can ham again after they have moved or if they will be moving, they can feel free to contact me as to how to make them, put them up and how to tune them to get an SWR of 1:1.

Arnie Kopischke, WAØDFT
20795 Foley Road
Mankato, MN 56001

Northwest Section

It is hard to believe it has been six months since I last wrote a report for *The BEAM*, but here we go again!

We have been running seven to twelve checkins on our net each Thursday morning. Conditions improved quite a bit on 75 meters during the summer, but now that the days are getting shorter, we are getting more and more interference from a foreign broadcast station nearby.

Bill, KI7XT, and his XYL, Jean, have moved to Medford, Oregon to an assisted living facility. He still hopes to get an antenna up in the air, but in the

meantime, he checks in on his mobile rig on 20 and 75 meters.

Ken, AL7AX, also used a mobile whip on 75 meters while he was in Spokane for the summer, and he gets out quite well. He and Darlene have headed back to Arizona for the winter.

Bob, VE7TRC, has been absent from our group the past few months as he is doing home dialysis to control a blood-kidney problem. We miss him and hope he can join us again from Salt Spring Island, B.C. Get well soon, Bob.

Dave, W7PTL, had to cut short their trip to Pennsylvania, as Wealthy was not able to stand the traveling. Sorry about that. Wealthy wanted to attend her 60th high school graduation reunion.

Chuck, N7AAG, tells us his son, Bryan, is now in Iraq with a Marine military police group. He was a deputy sheriff in the Sunnyside, Wash. area before being recalled to active duty. Prayers are requested for Bryan.

Ora, KE7BF, was in Canada visiting his family and had a good trip. We are glad to hear again that good signal from Grandview, Washington, in the Yakima Valley.

We continue to have a loyal group who join us on Thursday mornings for fellowship. I thank you all for your continuing work to keep this a meaningful, Thursday morning experience.

73 and 99,

—Bob Hambly, WA7BYD,
Northwest Section director

South Central Section

The South Central Section of ARMS meets on 40 meters, at 7226.5 kHz., Saturdays at 0800 central time for approximately 30 minutes. The regular ARMS members who check in number about seven. There have been up to 15 more over a period of time.

We have had one check-in from Indiana, one in Missouri, and several in Arkansas. Gerry, K4RBZ, ARMS president, checks in most of the time when

—Continued on the next page

Continued from previous page—

conditions permit. We hear Texas, Louisiana and Mississippi sometimes. We also had Omaha, Nebraska and Iowa check in several times.

In July I had a chance to visit with several of our ARMS members. In Springfield, Missouri, I visited Jay, KCØORJ, net control for the 20 meter net on Mondays. Then in Cash, Arkansas, a group of us gathered at the home

of Boyce Guffey, K5VSP. In addition to Boyce, there were Dwain Simms, AC5EH, of Jonesboro, Duane Vickers, KD5RQJ, of Tuckerman, and Harold Barnhart, KA9WWG, of Cherokee Village. Boyce and I played some gospel and country music in the afternoon. I played the keyboard and violin and Boyce played the violin and guitar, not at the same time of course.

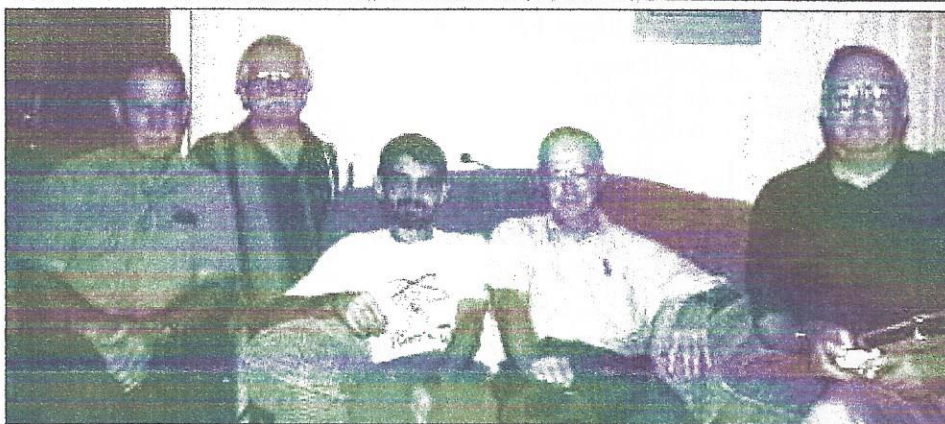

Also Mesdames Guffey, Barnhart, Vickers, Simms were present. The Barnharts brought their grandson. Also Boyce's grandson was visiting. I have enclosed some pictures, shown at the left, of the group at Cash.

There were no special happenings this fall except that the propagation on 40 meters was rough at times, limiting our operation.

Let me invite any others, and those who have checked in a few times in the last year, to visit us again as time and conditions permit.

—Duane C. Stradley, KM5O,
South Central Section director

Southeast Section

The Southeastern Section of the ARMS Group had its annual get-together Saturday July 17, 2004. We met first at Comfort Inn in Morganton, North Carolina and headed out for Grandfather Mountain in Linville, N.C.

We had a good turnout and had a good time with the HF radio checking into the ARMS 20-meter Net. A beautiful view from the swinging bridge was a sight to behold, so I am told. I couldn't make it, because it was not handicap accessible.

From there we were off to Mt.

Mitchell State Park on the Blue Ridge Parkway. It was about an hour and half drive and the scenery was breath-taking. The group hiked up to the summit of Mt. Mitchell (elevation 6684 feet) and took some more great photo's.

Dan and Pat Baumgarten took off to visit family in Colorado after we de-

parted Saturday afternoon. Bobby and Dianne Howington and their boys, along with Ed Bradley, also headed out on Saturday afternoon for home.

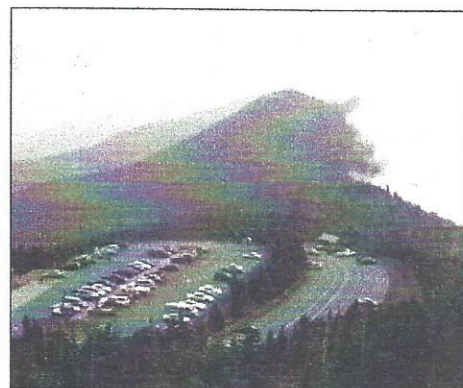

Andra and I stayed through Sunday and visited Dave Gillespie's church in Burnsville, N.C. and headed out for

Bobby Howington, KC4DOG; Dianne Howington, KD4PIG; Ed Bradley, W4VGI;
Barry McKinney, NG4EM; Pat Baumgarten; Dan Baumgarten, W4MGZ;
Denis Parker, WD4ACH; Andra Parker, KD4CLF; Dave Gillespie WA4LLR

home Sunday afternoon. All in all we had a great get-together and the Lord blessed.

Next year Dan and Pat invited us to

View from Mt. Mitchell

Wilmington, N.C. to visit their area. If you have never joined us for one of our get-togethers make plans for next year, we would love to see you.

God Bless.

—*Denis Parker, WD4ACH, Southeast Section director*

Why do we read scripture verses on the ham bands?

“As the rain and the snow come down from heaven, and do not return to it without watering the earth and making it bud and flourish, so that it yields seed for the sower and bread for the eater, so is my word that goes out from my mouth: It will not return to me empty, but will accomplish what I desire and achieve the purpose for which I sent it.” (Isaiah 55:10-11, NIV)

Solution to the puzzle on page 16

The mystery of the identities in the Central Section photo is solved

In the last issue of *The Beam*, we printed an old photograph of a rather distinguished-looking group of gentlemen. The only thing we knew about them was that the group represented a gathering of members of the now-defunct Central Section of ARMS. We asked if anyone knew the identities of the men and the circumstances surrounding the photograph.

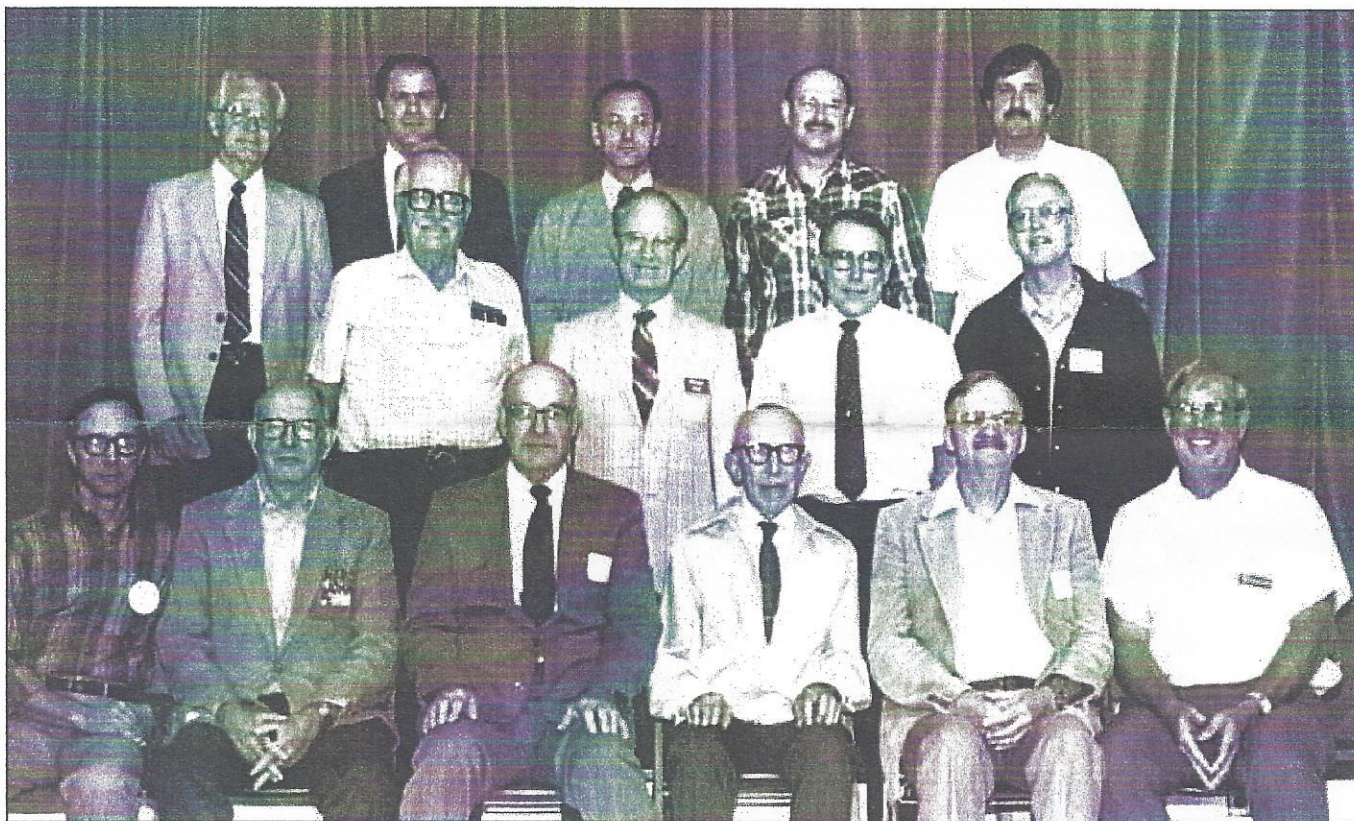

Later, we received an e-mail from Dan Baumgarten,

W4MGZ. Here are Dan's comments about the picture:

"I saw the photo of the ARMS Central Section and can provide you with names and call letters for 14 out of the 15 persons in that photo. Bud Owen, KG8BK, was able to help out with some of the names.

"The photo was taken at the fourth annual 'eye-ball' meeting on Saturday, October 4, 1986, in the basement of the United Brethren Church, Grand Rapids, Michigan. Dale Holloway (NJ8X), a former missionary to Honduras, was the speaker for the event. Hy Le Pard organized the get-together at his church."

Thank you, Dan, for taking the time to fill us in. So here is the photo again, now with (almost) all the identities of that illustrious group. ---

Back Row: Max Holloway (N8CVH), Dale Holloway (ex-NJ8X, now K4EG), unknown, John Racz (KA9000), Al Bierma (W08F)

Middle Row: Keith Sharp (KA8JVZ), Vern Macy (WB8UNB), Dan Baumgarten (ex-W8IHU, now W4MGZ), Larry Geysbeek (W8RUK)

Front Row: Bruce Dillingham (KAØDSF), John Link (N8RO), Hy Le Pard (KN8JDN), Harry Baumgarten (W9KWJ), Dick Steensma (KB7PRI), Bud Owen (KG8BK)

The following are now SKs: N8CVH, W08F, KN8JDN, W9KWJ, and W8RUK.

Silent keys

Gordon Carpenter, KAØKTD

Gordon Albert Carpenter, KAØKTD, was born December 24, 1916 on the family farm in Union County, South Dakota, the son of Albert and Ester (Finch) Carpenter. He received his education at Miller School and then worked with his father on the farm until entering military service.

He served in the US Army Air Corps from 1942 to 1945 with 33 months of that time spent in North Africa and Europe.

On August 7, 1949 he married Marjorie Malmberg at Allen, Nebraska. The couple made their home in Hawarden, Iowa where Gordon worked for Otis Radio for over 20 years and later operated a shoe repair shop. He retired in 1983.

Gordon was a member of the First Baptist Church where he had sung in the choir and was faithful in attendance. He trusted Jesus Christ as his Savior as a young man.

He was a member of the Veterans of Foreign Wars, a ham radio operator and a long-time member of ARMS.

Gordon died Saturday, December 13, 2003 at the Hawarden Community Hospital. Survivors include his wife, Marjorie, one daughter and one son, two granddaughters, and a brother. -- --

Harley Sykora, KØLNJ

Harley Frank Sykora, KØLNJ, was born November 5, 1921 in Windom, Minnesota to the late Frank and Sylvia (Hunter) Sykora. He lived in Windom with his parents until age twelve when the family moved to a farm by Storden, Minnesota. Harley graduated from High School in Storden. He was baptized in the Storden Baptist Church in his early teens.

Harley was united in marriage to Bernece A. Lee in Mankato, Minnesota on April 2, 1944. This union was blessed with four children, Keith, Brad, Paul and Mary Jo. After marriage, Harley and Bernece farmed for twenty years in the Storden area and then in the Windom area. After moving to Windom and building a home on River Road, Harley established his repair business. At this time, he also started to drive the school bus for the Windom School District. Harley's ability to repair anything was legendary, but his ability to get along with everybody was just as great an asset. Plainly put, Harley liked people and liked helping people.

In 1959, Harley became interested in ham radio and got the call he held for the rest of his life, KØLNJ (Lovely Nice Joe). He built his first rig, a Viking Ranger kit from the E.F. Johnson Co of Waseca, Minn. Harley grew his hobby, just as he did his crops when farming, to bigger, better and more advanced equipment. His favorite sessions on the radio, other than with Keith, his oldest son, were with the members of the Amateur Radio Missionary Service. His final radio transmission, very shortly before he died, was checking into the ARMS 20-

meter Christian Fellowship Net.

Harley grew up hunting and fishing with his dad and brother. He took many fishing trips to Canada with his family and friends. He particularly loved to target shoot. He helped to start the Sun Valley Gun Club and enjoyed many years of participation with his friends and family. He continued to shoot until his eyesight started to fail him.

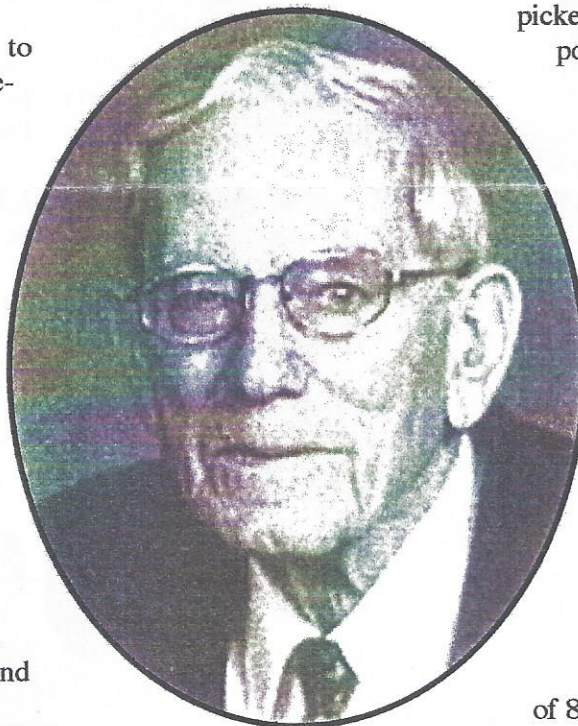

After moving back to Windom in 1965, Harley picked up golf clubs and found a new opportunity to fire his competitive juices.

He especially enjoyed his foursome on Men's Day. But best of all, golfing provided many happy hours together with his wife, Bernece.

Harley and Bernece spent the last 17 winters in Apache Junction, Arizona. They established another family of friends for golf and other "Snowbird" activities. They started out as the youngsters in their new Arizona church where Harley sang in the choir and took his turn as an usher.

Thursday afternoon, May 27, 2004, Harley passed away peacefully at his home in Windom, Minnesota after a lengthy illness at age of 82 years. Harley's hometown church was the First Baptist Church in Windom.

Harley's grateful family includes his wife of sixty years, Bernece Sykora of Windom; four children and their spouses, Keith (Beth) Sykora of Waseca; Brad (Sharon) Sykora of St. Peter; Paul (Ruth) Sykora of Hastings; Mary Jo (Don) Getting of Sanborn, Iowa; ten grandchildren; five great-grandchildren; two sisters, Charlotte (Tom) Vucinovich of Lakeville; Lucy (Wayland) Madsen of Woodbury; two brothers, Richard Sykora of Jeffers; Merle Sykora of St. Cloud. -- --

Net manager's report

I was humbled and pleased to be asked to take over the net manager's position, replacing the late Al Heath, AC5OA. Humbled, because I had never done this type of ham radio work, and pleased that I was considered a decent net control (NC) operator to merit the manager's job.

Al sent me the first information I

Jay Allenbrand, KCØORJ, new net control station on Mondays

needed to become a net control station in the Spring of 2003 to cover for Ken Wilder, AL7AX, who was moving to Arizona. I still use Al's original net list

sheet to send to others I have invited to consider being net control alternates.

Boyce Guffey, K5VSP, of Cash, Arkansas, a regular NC, has also been appointed assistant net manager.

First, the ARMS net suffered the temporary loss of Ken, AL7AX, who moved to Washington state for the summer. While he was out of pocket on Wednesdays, I searched for volunteers of the regular net control staff to cover, making a double week for each one. We did that very well. Thanks to each of you regular NCs: Dave Shortess, W7PTL, Mondays; Ora Gifford, KE7BF, Tuesdays; Ken Wilder, AL7AX, Wednesdays; Denis Parker, WD4ACH, Thursdays; Boyce Guffey, K5VSP, Fridays; and Gerry Brunk, K4RBZ, Saturdays.

I knew we needed additional alternates for times when others would be taking vacations and other activities. I talked with some of the ARMS officers and contacted a friend I had met on the Hams for Christ Net, Jay Allenbrand, KCØORJ, of Bolivar, Missouri. He had net control experience, and he was interested in ARMS net activity. At that time our long-time Monday net control station, Dave Shortess, W7PTL, needed to be relieved of the Monday NC responsibility, so Jay has filled the Mon-

day slot. Thanks, Jay, for doing a great job.

Mike Rafferty, K7PTL, our ARMS vice-president, is an alternate, but due to his work schedule is often on call. He fills in when needed and is a great relay from the eastern seaboard. I wanted to have another alternate on hand because of the next situation that came about. During the spring we had to cover for Denis, WD4ACH, during his move and surgery, making another need for alternates. Our regular NCs faithfully took extra days.

Gerry Brunk, K4RBZ, took a long vacation which left Saturday's net control position to be filled. Frank Brodale, AGØM, who is net control twice per month for his section, agreed to be an alternate. He took the first Saturday of Gerry's first vacation and did a great job. Frank's retirement on July 15th came at an opportune time. Gus Gustafson, KCØGWD, (see article below), agreed to serve as an alternate NC after his retirement on July 12th. So Gus has already taken a day as NC last month. And I, KM5O, will take my turn as alternate as we go along.

Again, thanks to all ARMS officers and members who have been relays who make the net run smoothly.

73 and 99,

—Duane C. Stradley, KM5O

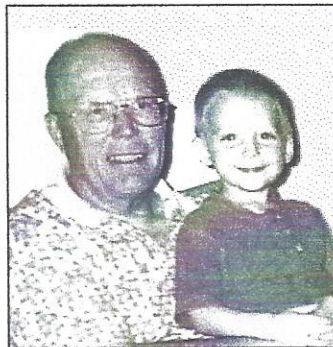

Gus, KCØGWD, goes to Sweden

This past year my wife, Lena, and I took a trip to Scandinavia. This was not the first time that we had done this. For me, it was the 13th time. We both have our roots there—I in Sweden and Lena in Norway.

Lena's family came over to America in 1846 so it has been a long time, but my family came in 1912 for Dad and 1928 for Mom. Most of my cousins and other family members live in Sweden and over the years we have been privileged to know all of them except my mother's parents.

We went first to Iceland on May 20th and spent two rainy days and nights there just to see what Iceland looks like. Then off we went to Stockholm on the 23rd and picked up a car to drive for the next month.

Lena flew back home on June 22nd and I stayed there until July 12th. I met up with about 23 fiddlers from the Minneapolis area and we traveled playing concerts and jammin' with the Swedish fiddlers. It was a great time for all.

Gus and his grandson

I inquired about ham radio and was told that it was an old person's hobby. Young people would rather pursue other hobbies involving new high technology. I did see a tower and beam while boating through the archipelago of Stockholm.

While there we were able to meet several former students and staff from the time we spent volunteering at the Nordic Bible Institute back in 1991. Can you imagine, walking down

—Continued on the next page

New member profile—

Scott Starker, KD7IFB

Greetings from Tucson, Arizona. As you know, I am new to the ARMS Net. I have had my General license only since November, 2003. I appreciate the ARMS Net because it gives me a chance to speak (read on) among other things.

I'm 43 years old. I grew up in Byron, Minn. When I went to college in Mankato, Minn. I wasn't a Christian and I didn't even know the Christian message. During my first year in college I heard the Good News and accepted Jesus Christ into my heart! After four years I graduated with an Electronics Engineering Technology degree and I went to work for the Mayo Clinic in Rochester, Minn. for two and a half years. Then I got married to a beautiful woman named Paula and I went to Trinity Evangelical Divinity School seminary. I got a Master of Divinity degree, although I didn't want to be a pastor. I wanted to be a missionary. It wasn't until

Continued from previous page—

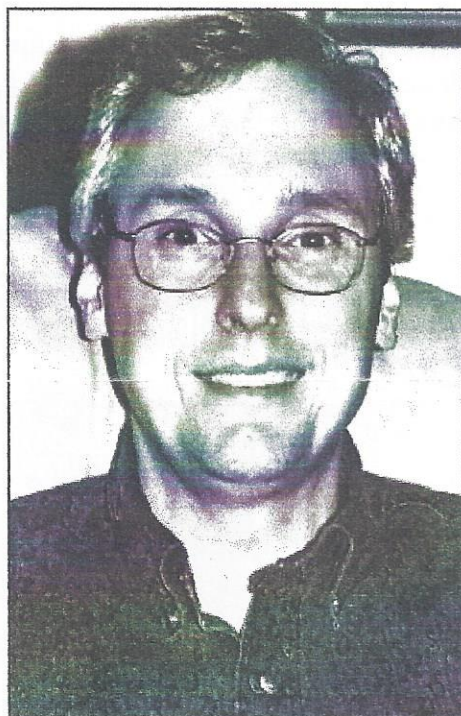

a sidewalk in a tourist town and have someone stop you and say "I know you." We spent the next two hours having coffee and talking with the student we knew from our days at the Bible School.

We are not through with visiting Sweden and hope to make several more trips. They have a rich heritage, but like so many countries in Europe, they have *no* need for God. They are living in a post-Christian era. Or, maybe we should be more positive and say that they live in a pre-Christian era. I hope and pray that they will see their need for a Saviour.

—Gus Gustafson, KCØGWD

my last semester in seminary that we decided we were going to join Wycliffe Bible Translators.

During the next three years we had much training and preparation to do between going to linguistics school in Grand Forks, North Dakota and Dallas, Texas, as well as our field training or "boot camp" and raising our support team. There are over 6,700 languages and dialects in the world so we had some hard work to do in deciding which country we wanted to go to. We chose Mexico and we went down to Cuernavaca, Morelos, Mexico to study Spanish. There are 288 languages and

Scott Starker, KD7IFB

dialects in Mexico with work still left to be done. Next, we had to decide which language area to go to. We picked Coicoyan Mixtec, high up in the mountains in the southern state of Oaxaca. After studying Spanish we went down to Juxtlahuaca, Oaxaca to study Mixtec, which was/is unwritten, by working with the Mixtec Indians. We lived in Mexico for two and a half years and our daughter was born there.

In June of 1997 we took a vacation to Minnesota. It was the very last day of

our vacation, and while sitting with my brother-in-law at his new computer, that I had a serious stroke. I was 35 years old. I know, I was too young for that to happen! The stroke affected my right side. My right hand is basically unusable, my right foot has a brace so I can walk (but not run) and I have a problem speaking although I can understand everything. (As a matter of fact, I passed my General license exam!) It's like I have a lot of words in my head and I have a problem deciding what things I want to say. And that's why I say the ham radio gives me a chance to speak. All I need is for you people to hang in there with me when I mess up with my speech.

No, I'm not translating the word of God with the people in Mexico anymore. But, I am the Webmaster of the Summer Institute of Linguistics (a sister organization of Wycliffe Bible Translators) (www.sil.org/mexico/) for the Mexico branch. I type with my left hand and I am still able to apply the knowledge I have of languages and linguistics without having to speak more than English. It is great that the Mexico branch has an administrative center in Catalina, Ariz. That's perfect for me because I would have had a much harder time living in Mexico and speaking Spanish than I do speaking English!

I have to give tribute to Al Heath, AC5OA, and his wife, Jeanne. After Al passed away to be with the Lord I inherited his ham equipment. He was a great guy, and I am thankful for his equipment.

I also give credit to my good friend, Don Jensen, KC7WV, who challenged me to become a ham in the first place, and has encouraged me and worked with me every step (and test!) along the way. God has used him to be my advocate in so many ways.

Praise the Lord that I have another life to live! The Lord has given me a new job, a new location and a ham radio to play with!

—Scott Starker, KD7IFB
