## From The Presidents Desk

Greetings from the Big Sky state!

First of all I would like to thank all who check in to the various ARMS nets around the country. I know we all enjoy hearing from each other so let us continue to encourage others to make that a part of their daily routine.

THANK YOU to all those who act as Net Control for the nets on the various bands. It takes a good amount of tenacity and stamina to conduct the flow of check ins for the duration of the net. We are all quite aware of the vagaries while operating the HF bands and it emphasizes the real need for as many relay stations as possible to get everyone checked in, including the several visitors we encounter throughout the week. I speak for each NCS when I say we appreciate the help you provide in making the net successful. It is a struggle on some days to get 10-12 check-ins on 20 meters. On other days we have recorded 28 or 29 check-ins!

Saturday.....Frank, AG0M, Cherokee, IA &  
Dean, K0TVJ, Mesa, AZ

### **RELAYS ARE NEEDED AND ENCOURAGED**

(We still need a regular Net Control for Fridays. This can be one person, or two people to provide good coverage.)

Grace to you and peace from God our Father and from the Lord Jesus Christ. (*Philippians 1:2*) We have all been dealing with the pandemic the last few months and giving each other encouragement with scriptures which promise God's protection in times of trouble. I have collected a number of such scriptures for you to read and from which you can gain comfort. You will find them scattered throughout this issue of the BEAM.

Much work is being done to find a vaccine to protect us from the virus, but we already have the best protection in God's promises to us and we know our God is faithful to keep all His promises.

**Frank – AG0M**

***Deut 7:9: Know therefore that the LORD your God is God, the faithful God who keeps covenant and steadfast love with those who love him and keep his commandments, to a thousand generations.***

***II Tim 1:12: I thank him who has given me strength, Christ Jesus our Lord, because he judged me faithful, appointing me to his service.***

***Psalms 91:4: He will cover you with his pinions, and under his wings you will find refuge; his faithfulness is a shield and buckler.***

## **Southeast Section Report**

### **Denis Parker – WD4ACH**

We had our Southeast Section Annual Get-together on Feb. 21 & 22, 2020, in Dalton, Georgia at the Dalton Hamfest, with an attendance of ten

We enjoyed good fellowship on Friday night with dinner at the Cracker Barrel in Dalton. The conversation centered around Ham Radio and our Lord Jesus Christ. The fellowship was sweet when we went back to the La Quinta Inn for a Bible study with Dave Gillespie, WA4LLR, our Net Chaplain, who talked about why we should not fear in these troubling times with the Lord as our guide.

Saturday, our day started early and we headed out for the Hamfest at 9:00 AM.

There was a lot of equipment in the "bone yard". We spent about 2 1/2 hours walking around and taking in all the toys as we drooled

over the dealers' tables inside the buildings.

While there, we had the pleasure of running into John, N4AOW. He joins us on the net each Saturday morning. About noon we went over to the Western Sizzlin' for lunch and more good fellowship. Then, about 1:30 PM, we all headed off to home.

We thoroughly enjoyed ourselves and we are looking forward to meeting again next year, the Lord willing.

If you are not active in our S.E. Section Net please join us on Saturday, at 9:00 AM on 3.902. Mhz. Bobby Howington, KC4DOG, is our Net Manager. He does a great job calling the Net for us.

We have 10-14 guys each Saturday and you are welcome to join us.

Well, the Lord Jesus Christ is coming, and I hope it is today.

***Right side of table: Victor Ahmed, AnnaGaye Newell, Dave Gillespie WA4LLR S.E. Section Chaplain, Raf Ahmed AI4RA, Bobby Howington KC4DOG. Left side of table: Andra Parker KD4CLF, Dave Newell WA4DUP, Ervina Gillespie N4PFZ, Kris Ahmed, Denis Parker WD4ACH, Ed Bradley W4VGI.***

## **Rocky Mountain Section Report**

**James Fisher – NQ7L**

Everything here has been shut own as it is everywhere else. Rhonda and I have not been allowed any pool activity at the Y which is badly missed and needed. Both of us try to walk but walking is not as good as a workout in the pool.

Our Church has been closed. Rhonda and I have been listening to a local service on the internet. We have also been able to get our Sunday School teacher on the internet.

We have not seen our son or other family members during the lockdown . We Skype with our daughter every other weekend. We also take short drives every two or three day to offset cabin fever.

I have been on the radio more and especially the ARMS net. This is a good benefit. Glad to have Mike K7PTL back in Montana even if he is a five hour drive away.

Our winter came a bit late and then lasted long , although not real cold or snowy.

I have been restoring a Heathkit HW-101 which has given me a lot of trouble. As soon as I get one thing fixed another appears. I also have a Heathkit SB-104A which has an issue. Wish WIGUP lived a little closer. We would put our heads together and get that 101 fixed.

I keep hearing reports of some Cycle 25 sun spots appearing so hope we can get off the bottom and start up.

We did have a local Ham Fest cancelled for April. I do hope to go to a Ham Gathering in mid June, Glacier Ham fest in mid July, and another Ham Gathering in Sept.

God's best to all and thanks to all the net control stations and officers for there work for ARMS and Christ.

See you on the air,

**James—NQ7L**

*Psalm 91:10 no evil shall be allowed to befall you, no plague come near your tent.*

## **From the President's Desk**

**(Continued from Page 1)**

Of course we enjoy the Christian fellowship on the air. Let us not lose the vision to reach those radio listeners as a witness for Christ. We are on a mission to the radio world. Let's take to heart these words from Romans:

**Romans 10:15** *"... as it is written, "How beautiful are the feet of those who bring good news!" What an opportunity we have to use our stations to bring good news to those listening to our net for His glory.*

Why do we read the Preamble before the net? Is it for the benefit of those who regularly check in? No. We are all familiar with who the group is, when we meet, etc. It is our way of introducing ourselves to the listeners who are monitoring the frequency.

We are still looking for someone ( or 2 ) to step up to the Friday 20 meters NCS position and the Net Manager role.

We are seeing new life springing up as we move through May. Our country is returning to a "new normal" as we get outside and enjoy the fresh air of freedom that has been put on hold. I trust this finds you well.

**Mike—K7PTL**

## **Eastern Section Report**

**John S. Babbitt—K2GQG**

The Eastern Section of ARMS continues to meet Mondays at 0715 and Saturdays at 0900 local time on 3907 kHz. Net Control duties are shared by net members who have been very faithful seeing all nets are covered.

The nets are a GREAT time of fellowship and supporting each other in prayer requests.

The first Monday of the month is "Missionary Monday" where members are encouraged to share with the group a specific missionary they pray for or support.

We continue to praise the Lord for his goodness and trust God's blessing for each of you in the coming days.

**John—K2GQG**

## Canadian Section Report

### **Roland Corkum - VA7RA**

Greetings in The Wonderful name of Jesus from the 'western front' of Canada; .

It has been a real time of testing for us all, having to go through the tribulation of this Virus Pandemic! I'm pleased to report that none of my family have been affected. Our province is already opening up basic shops and other public spaces such as parks. The tennis courts have been active since the middle of May.

On a personal note, I have not missed a day of walking up around the lake. However on a sad note, on May the 16th I was notified by the RCMP that my middle brother (Paul 69) had died. He will be missed.

With the bands improving a little as they shift around moment by moment, it is great to make contact with each other, even if it is with the help of SDR's across the land. Stu, K7ALM and I have been able to have the occasional chat on 80 but lately that has changed & now we might be better off trying 2 meters, eh Stu?

My neighbour Ed, VE7BQM has become a regular checkin on 20 meters and we are waiting patiently for the doors to open at his care facility so he can receive visitors again.

With Don VA7IQ back in Canada from his missions to Africa we also look forward to an eyeball in the near future. In Closing, I'm please to report that Roylene (xyl) is walking very well following the surgery to repair her broken ankle, which happened on February 20. 73 & 99 to all.

**Roland - VA7RA**

### More Thoughts for the Times

*Psalm 91:1: Because he holds fast to me in love, I will deliver him; I will protect him, because he knows my name.*

*Psalm 116:6: The LORD preserves the simple; when I was brought low, he saved me.*

*Jeremiah 31:28: And it shall come to pass that as I have watched over them to pluck up and break down, to overthrow, destroy, and bring harm, so I will watch over them to build and to plant, declares the LORD.*

*Psalm 31:23: Love the LORD, all you his saints! The LORD preserves the faithful but abundantly repays the one who acts in pride.*

*Psalm 12:7: You, O LORD, will keep them; you will guard us from this generation forever.*

### A Post Script from the Editor

I sincerely apologize for the lateness of this issue. I have had a couple of health problems that prevented me from working on the BEAM.

They have all been resolved, the most serious problem required that a pacemaker be installed. I returned from the hospital yesterday, God has been good to us, and we rejoice in knowing HIM and having confidence in HIS ways.

We look forward to hearing from some of you with news and information to include in the future.

73 & 99 to you all

**Roger—WØZMU**

## Midwestern Section Report

**Tom Hauskins—AAØLF**

*“May the God of hope fill you with all joy and peace as you trust in him, so that you may overflow with hope by the power of the Holy Spirit.” Romans 15:13*

Greetings to the Amateur Radio Missionary Service. The Midwest Section is alive and well! The last hamfest attended was on February 29<sup>th</sup> in Perry, Iowa. The weather was better than previous years and well attended. All other gatherings have been cancelled due to the pandemic.

The next hamfest is scheduled for August 8<sup>th</sup> and 9<sup>th</sup> at the Linn County Fairgrounds in Central City, Iowa for the Cedar Rapids Radio Club. The Cedar Valley Amateur Radio Club has again reserved the fairgrounds for another year. I am hoping we will not have to cancel this event. For further information, please visit [w0gq.org](http://w0gq.org).

Our Midwest Section has been very active on Saturday mornings at 7AM Central Time on 3905.5. Recently, we hit a new record of 17 check-ins.

We also use the ARMS chat room at [qsl.net/arms](http://qsl.net/arms). We have about 6-7 Midwest members log into the chat room on Saturdays during the net. We also use Digital Mobile Radio, DMR, on the TGIF network, TG 7399. If you are using DMR please join us. Some of our ARMS members are monitoring especially on Saturday morning from 6AM CT until net time. After the Midwest Section Net, we are back on DMR.

Everyone stay safe and keep praying. Trust in our Lord that we may soon overcome these hard times.

**Tom—AAØLF**

**Midwest Section Director**

## Northwest Section Report

### **Chuck Winter—N7AAG**

Snowbirds Dave (W7PTL) and Sharon (KA7DAC) are holding off on returning to Port Angeles from Tucson until they feel it is safe.

N7AAG – that’s me – I am still hunkered down (I like that much better than “cooped up.”) and keep occupied with keeping in contact with our church seniors and others in my capacity as pastor to seniors, here in Sunnyside. Remember, as we consider all that has been going on, “this too, shall pass...”

**Chuck / N7AAG**

**II Sam 22:31: This God—his way is perfect; the word of the LORD proves true; he is a shield for all those who take refuge in him.**

Greetings in Christ’s name from the Pacific Northwest.

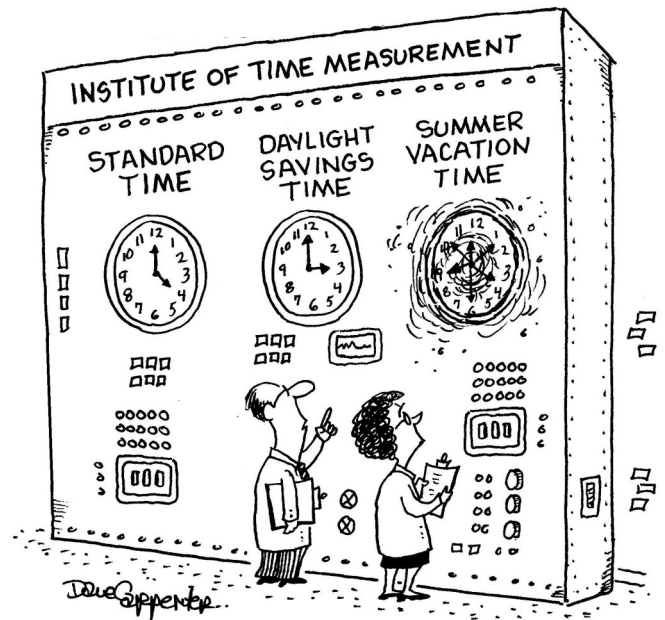

I have not heard of any hams wearing masks during their QSOs, but who knows, with the way things have been going that may soon be mandated!

We keep on keeping on with our Thursday morning NW 75 phone Net at 7:30 AM on 3965 kHz.. The number of check-ins vary week to week. It’s good to have Mike (K7PTL) and Mary (K3PTL) back at the QTH in the Montana’s Bitterroot Valley. John (K7BXF) has been riding herd as NCS through the winter months. But now with irrigation season he will be changing sprinklers and likely miss Net time..

Peter (KG7MVH) sends out a gangbuster’s signal from his QTH in Harrah, where he keeps busy as pastor of the Grace Brethren Church. We saw each other by ZOOM Sunday as our NW District GBC Conference was held online.

For the first time in a long time we could hear – albeit lightly – James (NQ7L) from Billings. Stu (K7ALM) in Bremerton checks in when he can, as does Howard in Bremerton.

### **On the Lighter Side**

**"THAT ONE ALWAYS RUNS FAST."**

*(Used by permission <http://carptoons.com/>)*

**Psalm 18:30: This God—his way is perfect; the word of the LORD proves true; he is a shield for all those who take refuge in him.**

## Webmaster Report

### Lew Orcutt—NCØCX

Greetings from the Heartland brothers and sisters and may Peace be with you as we travel through this Covid-19 path we are on. The new chat room seems to be a success and is helping us a great deal.

We have added a new page called Buy/Sell/Trade. I will keep listed them for a month and then they will be removed unless you advise me they have been sold earlier.

Bible articles from Gary VK4FT have been added to our links page so please let me know if you like these, or others like them. Along those lines I have added a link to our local church's daily devotions. I will add another one each Friday until I run out of them so let me know if that is an ok thing.

There are also links to pictures on our link page. Please send photos to us for posting.

Attention Directors, Managers, and Net Control stations: Please check the Beam and the web site content and advise us where updates or corrections are needed.

We really need a net manager as well as directors for the South Central and Southwest Sections as well as a Net Control Station for Friday's 20 meter net. If you are able, consider stepping into any of these areas and let Mike, K7PTL know.

I started out this year with an emergency trip to the hospital with a severe Gastric attack but all is fine now. With better food habits and exercise, I've lost about 30Lbs since January and feeling better than ever.

Keep your eye on the prize and as you know the Cross and the saving grace of God as we travel this worldly path,

"May the road rise up to meet you, May the wind be ever at your back, May the sun shine warm upon your face and the rain fall softly on your fields, And until we meet again, May God hold you in the hollow of his hand."

God Bless.

Lew — NØCX

## Midwest Section's First Director

### WØQCB Licensed in 1937 (SK 2006)

"QUIET PLEASE!" A sound of muffled voices is heard, then a flood of dots and dashes fills the room as station W8ZRL of McKinley high school, Cedar Rapids, Iowa goes on the air.

The main objective of the club is to acquaint its members with the theory and practice of radio in its many fields, and to help the members to get their amateur operators' licenses from the government.

Starting only last year with only one licensed amateur operator, the club drafted its own constitution, providing for election of officers and rules of procedure. Now the club boasts of four licensed operators, called "hams."

The first operator and president of McKinley's club was your reporter, who received his license and call "W9YWL" last October. A former member of the Roosevelt School Radio Club, Tom Ecklund, "W9AXN" recently joined the McKinley club. ***Francis Fink, "WØQCB", received his license last Wednesday.*** Other members are working on completing the licensing requirements.

The boys have built an experimental transmitter, but a more powerful one is now under construction. Morse code practice and discussion of the fundamentals of radio are covered at every meeting in the Technical Foundations conference room, on the fourth floor of the McKinley school building. Meetings are usually scheduled for every Thursday at 7 o'clock.

The amateurs exchange greetings and cement friendship begun over radio communication and "Ham" conventions held in various cities every year. Not only have the country's "hams" built good will among themselves, but they have been of service to their country in time of distress.

**Cedar Rapids, IA**  
**By John Dabinett**  
**October 2, 1937**

(Francis' widow, Maxine now holds the call, WØQCB)

## **Hard Times?** **By ARMS Member** **Dennis Jones KKØDJ**

I have been hearing from friends, neighbors, family and fellow Hams their consternation regarding the changes that the COVID-19 Virus restrictions have beset them and their families with. As I hear these and wonder out loud to my wife Nola, she reminds me that most are just venting their frustration in the restrictions and would like to be back in a normal set of life circumstances.

In relation to the complaints and such I have been hearing, I of course respond first by adding these folks to my prayer list that the Lord will help them through this trying time. Some have asked why I seem to be unfazed by this dilemma and that's what I am writing this for!

Life sometimes brings changes that change us as people. As I look back upon my life and I recall the utter desperation of separation that Navy life brought, I especially recall that during my training at the U.S. Navy Submarine School in Groton, CT. The school was quite difficult for me academically as well as the psychological testing that is done. I didn't take the time then to assess what being onboard a vessel that can stay at sea for greater than 90 days submerged might be like.

My time in the Navy was B.C. (Before Christ) as the Holy Spirit did not open my mind and soul to the Truth until I was 35 years of age. So read this with that in mind.

Upon graduation from Submarine School, I was given orders to report aboard the U.S.S. Haddo (SSN\_604) that was presently at the end of it's reactor core replacement and ship updating in Pascagoula, MS at the Ingalls Shipyard. I reported aboard and was relieved to hear it would be a couple of months before we put to sea. This had dual considerations though. Yes, I had at least some time to get ready to prepare myself for my first undersea experience.

Let me skip to the event that began the experience. One thing that is done to "newbies" at least at the time I was in was to have us (me) be the last down the hatch prior to submerging the boat. I thought I was prepared for this and indeed there was a cadre of my fellow shipmates awaiting my quick travel down the ladder as the boat submerged. I

remained topside until the last minute and as I closed the outer hatch door there was water coming in at a pretty good rate. I got that hatch closed and was struggling a bit to get the inner hatch closed but no one dared to help me. This was a test of the mettle of new submariners and they didn't want to disallow my competing it. I was finally able to swing the inner hatch closed and dogged it down with the spinning wheel on the hatch door. I leapt from the top run of the ladder I was on and hit the removable aluminum plate floor with a thunk. As I stood up, applause was granted this new submariner in that I 'passed' muster.

Those fellow shipmates knew that my insides were torn up and my brain was on alert as I had just closed myself and my shipmates into a steel coffin. The truth is you do indeed get used to it, but that first closing of the hatch is key to success.

How does all of this relate to how we're doing in how we traverse through this COVID-19 virus lockdown? Well, I didn't know myself until I read an article a gentleman wrote online regarding the fact that there is at least one group of people who are not suffering the same as others during this time of lockdown. He said that nuclear submariners were that group.

As a qualified submariner, I did become accustomed to living in quarters that define the word close in its most minuscule variation. Until I was qualified, I slept in the torpedo room as all pre-qualified submariners do. I slept on the bottom rack right next to a nuclear tipped Subroc torpedo. I slept with excessive loud noises and the lights on all the time. Further, I was standing watch 8 hours on and 8 hours off. Learning to sleep in that 8 hours off was quite the challenge!

**(Continued on the next page)**

***Psalm 121:2: My help comes from the LORD, who made heaven and earth.***

***Psalm 121:3 He will not let your foot be moved; he who keeps you will not slumber.***

***Psalm 37:40: The LORD helps them and delivers them; he delivers them from the wicked and saves them, because they take refuge in him.***

## Hard Times

### Dennis—KKØDJ (Continued)

Along with my new accommodations, I worked in a small radio room that was approximately 8' long and about 3' wide complete with transmitters, crypto equipment, amplifiers, receivers, teletype machines and a full range of publications to keep up.

Once qualified, my sleeping quarters were moved to a top rack in the bow compartment just above the diesel equipment space which was visited hourly by the watch who is responsible to check various things in that space. A sleeping space or as the Navy calls it, a "rack" in a 593 class boat such as the Haddo, is a 6' long by 30" deep by 28" tall square aluminum cavern with a thin mattress and a lumpy pillow. I learned to be thankful for that old mattress and pillow and especially the thin curtains to provide some privacy. However, I didn't learn to always look when I was arising from sleep. One morning (which could be anytime really on a submarine) I rose to take the watch. I swung out of my rack and as I was in habit of doing, swung down to land on the deck. I just happened to awake at the time that the watch shipmate was down in the diesel equipment space. As he normally did, he left the hatch open. I dropped down to the deck below my intended landing place and found myself crumpled up in the diesel equipment space with the watch stander who was laughing so hard he couldn't stop. Yep, didn't do that again!

The boat's premier outing after the shipyard period was to the Exuma Sound in the Bahama Islands. This is a nearly fully enclosed very deep large sound in which submarines do their post-yard periods or new boats going to sea for the first time. Various tests are run for various reasons to make the boat fully ready for war at any moment.

The one test that we succeeded in completing without incident taught me a resolve that I believe prepared me to withstand this time of voluntary lockdown. That test was a full speed run (submarines are faster than any other Naval Vessel) at test depth (which is an undisclosed percentage less than crush depth. Having come through that and then stepping on mother earth with glee at the sub base in Charleston, SC gave me a feeling of accomplishment that nothing has yet to exceed.

Hasn't there been something or some event in your life that seemed insurmountable and impossible? If not, then this voluntary sequestration could be your life's test that all of your future life events might be measured. The key here is to keep yourself from being pulled away or pulled down by events or circumstances you are presently going through, have been through, or will go through. Jesus is our Lord. He is our Savior. He is our God. He is our Spirit within us. Imagine now what it would be like to have gone through a similar life circumstance as I did *without* Him and REJOICE that you will NEVER have to do that if you know Him.

Look back at the past month of our life with the COVID-19 virus and take account of what you have had to do and how well you have traversed through it. It might get harder in the coming days, months but hopefully not years... so we all need to keep our present course toward Him and weather the storms as best we can because He is with us and will be there on the "other side" as well. In this time also encourage those around you that are struggling. Especially those whom are your brothers and sisters in Christ.

We are blessed with freedom like no other country and that freedom comes at a price. Many died to give freedom to us. Let us revere their sacrifice of life for us and sacrifice our freedoms in part for a short time. Adhere to what our leaders ask of us and remember that doing so will save the lives of our neighbors. Remember... our second greatest commandment is to love them as yourself. This is a serious disease that can kill many in a few days or hours. Don't let the enemy dissuade you from persevering and seeking personal freedoms instead. We're all in this together brothers and sisters... let us press on and hold His hand through it. He will get us through it!

***Psalm 91:9-10: Because you have made the LORD your dwelling place— the Most High, who is my refuge— no evil shall be allowed to befall you, no plague come near your tent.***

***Psalm 37:28: I thank him who has given me strength, Christ Jesus our Lord, because he judged me faithful, appointing me to his service***

## ARMS News Updates

Here I am again, reminding you all that our membership year runs from June 1 to May 31. That means that it is renewal time for many of you. Our thanks to those that have already done so.

Reminder notes will be going out to those that are three years in arrears. We really don't want to put anybody on the "inactive" list.

Check the last page for the renewal form.

## And Some Words From the Editor

### **Roger—WØZMU**

As I gain more experience at this thing called editing, I am finding it to be a lot of fun.

I hear from the Section Directors and the other leaders of ARMS on a more regular basis and find myself paying more attention to what is going on not only in ARMS but also in mission work the world over.

That mission news is mostly published in the "in-between" issues that I refer to as the "MINI-BEAM." (Maybe they should both be called the BEAM), as they represent the two major aspects of ARMS.

The regular BEAM is dealing more with the functions of the club, or times of fellowship, sharing what the Lord is doing in each of our lives. And, by the way, I would love to hear from more of you along that line. Dennis KKØDJ sent me his story unsolicited, but I think it is of interest to many. Surely more of you could also share of how the Lord has led you along in your daily walk.

The "MINI-BEAM" deals mostly with the other aspect of ARMS, our work with missions and promoting and interceding on behalf of those dedicated to sharing the Gospel and making disciples..

Neither of these is more important than the other as both are at the core of what ARMS is about.

So, as we go about our daily activities, let us enjoy or fellowship with one another, on the air or otherwise, but let us also remember those that aren't on the nets or at our meetings. These servants are just as much a part of ARMS as any of us. We are all Co-laborers with Christ!

73 and God's best to you all,

**Roger—WØZMU**
