Testing Committee –Our next testing session will be at on during the Ham Fest in November at 8:30am.

Repeater Reports

- 73 Site – Internet has finally been restored. The new repeater should be installed today and the new laptop will be installed within a few weeks. We have a network power strip to shut off power, but we will also need to tie in a relay for the DC power going to the repeater as well.
- 440 – Everything seems to be working well with that repeater.
- DMR – Information on connecting has been added to the website.

Sometime this winter we will schedule a cleanup day for the repeater sites.
