

Winlink Wednesday Roster for 6 May 2020 (Episode #191)

Winlink Wednesday

Greetings,

Our next net will be held on Wednesday, 13 May 2020. I will send out a reminder on Tuesday.

For the latest information regarding the weekly participant map, see:

https://www.qsl.net/kw6gb/Winlink_Wednesday/WWMap.png

The current net report and roster is also available at:

https://qsl.net/kw6gb/Winlink_Wednesday/WWRoster.pdf

NEWS:

Winlink Wednesday Local VHF P2P Subnet results:

Blue Ridge (NCS: Wayne, KM4YC, Fauquier County): THIRTEEN participants, including NCS.

Central VA (NCS: Dave, W4IIA [as W4IIA-2], Henrico County): THIRTEEN participants, including NCS.

Hampton Roads (NCS: Frank, KN4DUF, Virginia Beach City): SEVEN participants, including NCS.

[NEW] Prince William County (NCS: WC4J, Manassas City): FIVE participants, including NCS.

Winlink Wednesday PACTOR and VARA P2P Subnet results:

Statewide (NCS: Randy, KE4RL, Wythe County): SIX (PACTOR), TWENTY-TWO (VARA) participants, NOT including NCS.

If you would like to participate in any of these subnets, contact the NCS directly. If you would like to host a Winlink Wednesday VHF P2P Subnet in your area, contact me for details on how to get started.

NET NOTES:

1.) Two more records yesterday! Winlink Wednesday received **251 total messages (new record)**, comprising 177 check-ins from **148 Virginia participants (new record)**, including three new Virginia stations. **Welcome to Rich (AE4OK), Steve (W4FMD), and Richmond Amateur Telecommunications Society (W4RAT)**. In addition, there were 39 check-ins (39 stations) from outside Virginia (AZ, CA, DE, FL, GA, IN, MD, MS, NC, NM, NY, OH, OR, PA, SC, TN, TX, WA, and WV – **plus UK and the Virgin Islands**).

2.) Of the 251 messages received, 54 stations checked in via Peer-to-Peer. Of those, 29 also checked in using a Winlink RMS station. The remaining 93 checked in via RMS only.

3.) Thirty-seven stations checked in during the morning Winmor P2P session. There was no afternoon session. Twenty-five stations checked in during the evening ARDOP P2P session.

4.) P2P check-ins are identified below by a leading asterisk (*). Their RMS counterparts are noted by a leading plus sign (+). Double asterisks (**), double plus signs (++), and double "o" (oo) indicate second and subsequent check-ins from the same call sign using the same mode. Lower case "o" (o) indicates uncounted, out-of-state (or Telnet) check-ins. Square brackets [xxx] indicate notes by net control. Slash marks (/) indicate a properly formatted, attached ICS-213 form. Question marks (?) indicate a problem with the ICS-213 form (usually either an outdated template or incorrect message format). Contact me directly if you want help in correcting your ICS-213 submission.

WINLINK WEDNESDAY CHECK-INS, 6 May 2020 (Episode #191)

Total Virginia participants = 148

THE FOLLOWING IS THE NET CHECK-IN LIST AS RECEIVED

KW6GB, Greg, Front Royal, Warren, VA (HF) (Net Control)
