

ALACHUA COUNTY PACKET NODE MAP

UPDATE: 11/29/2017 with new map from Jim Bledsoe

We have an interlocking set of dual frequency stations that allows us to stay separate from Ocala frequencies and from SEDAN, but allows connection when necessary. Any frequency or node can be used as necessary to make a connection. Most stations include CHAT as well (SSID's vary)

-10 indicates a WINLINK GATEWAY

-7 indicates a node with a command line (type ? to reach)

FREQ		Connect 030 to 770	Connect 770 to 070	Connect 030 to 070	
145.030 (P6)	Most Ocala stations	W4DFU-8/9		KX4Z-7/10	
145.070(P7)	Local GNV stations		NK3F-7/10	KX4Z-7/10	NF4RC-7 KM4YGH-7/10 K14QBZ-7 K14KEA-7
145.770(P8)	SEDAN	W4DFU-8/9	NK3F-7/10
