# ARES® Training Plan Task Book

## Task Book

The TaskBook is a working document that enables those ARES® communicators electing to participate in the ARRL training plan to track and document their training plan elements as they are completed towards the various levels of increasing proficiency. The TaskBook should contain all training plan items, completion dates and sign-offs as the ARES® communicator transitions through the three skill levels. The ARES® communicator is responsible for maintaining his/her TaskBook and having it with him/her during training and assignments. The TaskBook also contains sections with definitions of the communicator levels, as well as common responsibilities.

Since the Task Book is personal to each ARES Communicator, each user should feel free to adapt it to their needs and requirements of their geographical region.

Recommendations of minimum proficiencies and skills per level are listed. **ECs, at their discretion, can add or substitute skills that they consider important.** Prior known experience may be substituted for some listed tasks. It is suggested that items in the proficiency/skills section be used in training sessions or for meetings/events presentations.

**NOTE:** the approving EC should meet/exceed the qualifications for each level they are signing off on.

**ADDITIONAL NOTE:** At the end of this Task Book is a change log page that communicators should use to keep track of changes to the Task Book.

## Skill Levels
