THERE MAY BE WORK ON BEHALF OF THE NFL SECTION AS WELL.							
HURRICANE BUNNELL has roared through Alachua County with hurricane force winds and caused a lot of damage, a small number of fatalities and displaced thousands into a dozen shelters temporarily in Alachua County. Alachua County ARES has been supporting those shelters with communications,							
TODAY's TASK is to provide STATUS reports from each of our volunteers, at their assigned position. [You get to choose your "assigned position -- it can be at your house, at any nearby facility of interest, or any facility of interest on your way to a Picnic coincidentally being held.]							
Alachua County ARES (and similar groups in other counties) has been asked to provide status reports , and to regularly report on the status of essential services --- and of "civil stability". MARS and SHARES are also activated.							
A communications structure has been set up for ARES members to report on the status of their assigned location , utilizing a STATUS REPORT nets for status traffic. WINLINK reports are also requested using a specific template, in the body of a RADIOGRAM.							
SEE format ON ATTACHMENT PAGE WITH BLANK RADIOGRAM ALACHUA COUNTY ARES POINTS ARE TOTALED, ONE POINT FOR EACH STATUS REPORT RECEIVED. EACH PARTICIPANT CAN ONLY MAKE MAXIMUM TWO REPORTS, ONE BY VOICE AND ONE BY WINLINK VIA RADIO. PARTICIPANTS DO NOT HAVE TO BE PREVIOUSLY REGISTERED ARES MEMBERS <u>and may be from any county.</u>
