

INCIDENT BRIEFING (ICS 201)

1. Incident Name:
NFARC/ARES Field Day 2022

2. Incident Number:
006

3. Date/Time Initiated:
Date: Time:

4. Map/Sketch (include sketch, showing the total area of operations, the incident site/area, impacted and threatened areas, overflight results, trajectories, impacted shorelines, or other graphics depicting situational status and resource assignment):

Veteran's Memorial Park. 7400 SW 41 Place Gainesville FL. Paved road just below photo. 2 dirt road entrances. Medium weight trailers enter via Entrance #2

Station 1/VHF/UHF - Air conditioned Admin Bldg large empty room. Feedline / Power "issue" requires solutions thru commercial door. Power for radios etc from MARC Unit generator. VHF/UHF and HF antennas on MARC TOWER / sloping to trees. Additional Trailers possible in paved parking lot.

Station 2 HF - Trailer(s) sited at far end of 1000 ft dia circle. Require separate electricity (generators/solar) POSSIBLE OPERATION REMOTELY VIA MICROWAVE LINK FROM ADMIN BLDG (would minimize need for 2kw for AC)

Microwave link relay at top of MARC unit, 10BaseT down to power at base. Carries logging / possible remote operation traffic.

Permission to utilize COUNTY OWNED PARK FACILITIES, including overnight, will be required.

This facility is a prime target for a continuity of operations effort by the EOC.

5. Situation Summary and Health and Safety Briefing (for briefings or transfer of command):

Recognize potential incident Health and Safety Hazards and develop necessary measures (remove hazard, provide personal protective equipment, warn people of the hazard) to protect responders from those hazards.

Field Day Executive Summary - EOC Continuity of Operations Exercise

ARRL Field Day NF4AC EOC Club Call Sign

Note that there are at least TWO groups holding Field Day in Alachua County. This information is for the ARES/NF4RC/NF4AC group. <https://qsl.net/nf4rc/> The Gainesville Amateur Radio Society will hold their excellent Field Day in Waldo, Florida. Further details on that effort: <http://gars.club/>
(requested in previous Improvement Plan)

INCIDENT BRIEFING (ICS 201)

1. Incident Name: NFARC/ARES Field Day 2022	2. Incident Number: 006	3. Date/Time Initiated: Date: _____ Time: _____
June 25,26, 2022 Field Day is always the last FULL weekend in June.	EXCHANGE: 2F NFL vs 2A NFL (TO BE DETERMINED)	Onsite setup begins at 0800 Saturday due to LOWER TEMPERATURES
MARC UNIT request dependent on availability / other disasters	LOGISTICS prepares and supervises all equipment to be brought to/from site.	OPERATIONS supervises all functions of running the operation.
Actual Field Day starts at 2 PM CALL SIGN NF4AC (Alachua County EOC Call)	1 Free VHF transmitter -- work 6M/2M etc. Possible use to move bonus radiograms to K4ZSW-10 or KX-10	Free Satellite Station -- try to get bonus points!!
2 HF Transmitters Class 2A or 2F (TO BE DETERMINED)	Try every band from 160 to 2 meters!! Try every mode you want -- CW, FT8, PSK, RTTY, VOICE	All bonus point photo documentation goes to Documentation Email (see below)
<p>SPECIAL SUGGESTION for FIRST TIME FIELD DAY HAMS.... please peruse last year's AAR (https://qsl.net/nf4rc/2021/AlachuaCountyARES2021FIELDDAYAfterActionReport.pdf) to find out <i>what we did, what it was like</i>, because we are doing a similar plan this year. Experienced hams--- suggest you read it too for the "improvement items" -- maybe YOU can be the one to make a difference this year to check one more item off the list!</p>		
SAFETY CONSIDERATIONS		
THE PUBLIC	Publicly Accessible Site - Protect all cables, wires etc at main unit to avoid accidents from Public.	
SUN	Avoid sunburn and over-heating. Use sunscreen, cover, hats, and drink lots of Fluids	
RESTROOM	Admin Building Facillities Trailer also has small restroom and safe water	
OVER STRESS INJURIES	This is a FUN event. Plan ahead and limit your efforts on the day of the Event to what is SAFE for your body!! Don't hesitate to "take a break."	
Fire / Explosion / Electricity	Fire Extinguishers near Generators / Fuel. Exercise great care with fuel. Exercise great care with electrical cables. Protect connections against sitting in rainwater.	
SECURITY	Lock vehicles / structures if not attended. Avoid leaving valuable out in sight.

7. Current and Planned Objectives:

❑ PARTICIPANT: PLEASE PRINT A COPY OF THIS AND BRING WITH YOU TO KEEP TRACK!

Suggested Experience Check Off
(from Jeff Capehart's Training Idea)

No.	Item	Check off	Sign off (if needed for later Taskbook entry)	"Bragging Points"
1	Learn how to tune a vacuum tube power amplifier	<input type="checkbox"/>	_____ Mentor	10
2	Make 5 Field Day FT8 Contacts	<input type="checkbox"/>		10
3	Make 5 Field Day PSK Contacts	<input type="checkbox"/>		10
4	Make 5 Field Day RTTY Contacts	<input type="checkbox"/>		10
5	Make 5 Field Day SSB Contacts	<input type="checkbox"/>		10
6	Compose, post, and send 2 radiograms using WINLINK for Field Day bonus points	<input type="checkbox"/>	_____ Copy received by Documentation	20
7	Make a Field Day contact on 160 meters	<input type="checkbox"/>		10
8	Make a Field Day contact on 10 meters	<input type="checkbox"/>		20
9	Make a Field Day contact on 6 meters	<input type="checkbox"/>		30
10	Learn how to set the LDG tuner for semi- or full-auto tuning operating as desired	<input type="checkbox"/>	_____ Mentor	20
11	Keep log for someone for 1 hour	<input type="checkbox"/>		30
12	Make 1 CW contacts -- OK to use FLDGI	<input type="checkbox"/>		30
13	Set up an HF antenna and obtain SWR under 2:1 on 80 meters (tuner allowed)	<input type="checkbox"/>		20
14	Set up an HF antenna and obtain SWR under 2:1 on 40 meters (tuner allowed)	<input type="checkbox"/>		20
15.	Build a 2 meter emergency antenna on site and demonstrate SWR < 2:1 (no electronic tuner allowed)	<input type="checkbox"/>		20
16	Build a 2 meter or 70 cm 3-element directional antenna and demonstrate SWR < 2:1 (no electronic tuner allowed)	<input type="checkbox"/>		40

GRAND TOTAL BRAGGING POINTS:

- A. Safety for All.
- B. Have fun and learn!

Note that the AAR/IP from the 2020 Field Day gives LOADS of tips and tricks from multiple participants and is well worth the time to review: <https://qsl.net/nf4rc/2020/AlachuaCountyARES2020FIELDDAYAfterActionReport.pdf>

INCIDENT BRIEFING (ICS 201)

Media Publicity: UPDATED for 2022: 100 bonus points may be earned for obtaining publicity from the local media. A copy of the actual media publicity received (newspaper article, etc.) must be submitted to claim the points. Any combination of bona fide media hits would qualify for the bonus points. For example, posting the details of your upcoming or ongoing Field Day activity, or your Field Day results, on a club or news media site, on Facebook, or via Twitter and Instagram would meet the bonus criteria. Available to all Classes.</p>	
Thursday Evening 7PM	<p><input type="checkbox"/> OPERATIONS: ZOOM TABLE TOP DRESS REHEARSAL -- ORGANIZED BY OPERATIONS Everyone is invited, leadership requested to attend if possible. https://us02web.zoom.us/j/89530741792</p> <p style="text-align: center;"><input type="checkbox"/> Review the networking plans, and computers, passwords, etc. .</p>	
	<p>FOR A 2A STATION, OPERATIONS AT THE SITE OF FIELD DAY MAY NEVER BEGIN PRIOR TO 000UTC FRIDAY (8 PM THURSDAY EVENING FOR ALACHUA COUNTY)</p> <p>FOR A 2F STATION, OPERATIONS ARE NOT LIMITED BY THIS TIME FRAME.</p>	
Friday Business Hours	<p><input type="checkbox"/> OPERATIONS: Make certain of available of KEY to building; access to any tables, chairs, and ability to open GATES to allow trailers in/out.</p>	
Friday Afternoon & Evening	<p><input type="checkbox"/> LOGISTICS: BUY gasoline / DIESEL for the generator (lets have minimum 3 5-gallon jugs on hand) Need a CHAIN to lock them to a tree and a KEY stored in the TRAILER. Gordon has keys to the Trailer and will give one set to OPERATIONS.</p> <p><input type="checkbox"/> OPERATIONS: DIGITAL BULLETIN (BONUS POINT) OPERATIONS to coordinate having this message captured transmitted at 6pm / 9 pm Eastern - 3.5975, 7.095, 14.095 45.45-baud Baudot, PSK31 in BPSK mode and MFSK16 on a daily revolving schedule. THEY DON'T ALWAYS SEND ALL VERSIONS</p> <p><input type="checkbox"/> OPERATIONS: SSB BULLETIN (BONUS POINT) OPERATIONS to coordinate having this message captured at 9:49 PM Eastern - 3.99, 7.29, 14.29 (Note the 7.29 is full AM with carrier!)</p> <p><input type="checkbox"/> Email the text of the bulletin to (PLANNING SECTION EMAIL ADDRESS) We have to submit the TEXT that you copied.</p> <p>PDF: https://qsl.net/nf4rc/2021/W1AWFieldDayBulletinBonusPoints.pdf</p>	

INCIDENT BRIEFING (ICS 201)

1. Incident Name: NFARC Field Day 2022	2. Incident Number: 005	3. Date/Time Initiated: Date: Time:
Saturday (6/27) 8:00 – 10:00	SATURDAY MORNING SETUP	
Saturday Beginning 10 AM	<div style="text-align: center;">SOLAR POWER BONUS POINTS PREPARATION</div> <ul style="list-style-type: none"> <input type="checkbox"/> LOGISTICS is in charge of delivery of all equipment -- please keep track <input type="checkbox"/> OPERATIONS Setup crew Check-In at Admin building <input type="checkbox"/> OPERATIONS: Setup crew Install radios, primary and backup antennas, feedlines, tuners, logging laptops, (Primary Generator, Solar PV and emergency back-up) power, and associated equipment at Station 2, VHF and Satellite locations. Solar PV charging may be easiest at the distant Station 2 to avoid public curiosity. VHF/UHF ANTENNAS MUST BE READY TO GO ON THE TOWER PRIOR TO TILTING THE TOWER INTO PLACE. ROPES PULLEYS ETC MUST BE ON THE TOWER PRIOR TO TILTING. <input type="checkbox"/> OPERATIONS: Setup crew Testing: Station 1 (Admin) Station 2 (Trailer) , VHF and Satellite Radio Systems for planned bands and operating modes: CW, SSB Phone, and Digital (FT-8, FT-4, other) Verify that the radios, computers, logging all works. 	
Saturday 10-12	<div style="text-align: center;">SATURDAY MORNING FORMAL EDUCATION</div> <p style="text-align: center;">See published Schedule https://www.gsl.net/nf4rc/</p> <ul style="list-style-type: none"> <input type="checkbox"/> OPERATIONS to set up one or more EDUCATIONAL ACTIVITIES (BONUS POINTS) and document with attendance sheet and photograph sent by email to DOCUMENTATION with appropriate subject line – make it One document preferably in .doc or pdf so that DOCUMENTATION can easily upload it to the ARRL. One possible Educational Activity is a demonstration of the various systems for the MARC UNIT Personnel. 	
12:00-13:00	<div style="text-align: center;">BREAK AND LUNCH AFTER SETUP</div> <ul style="list-style-type: none"> <input type="checkbox"/> OPERATIONS: Lunch -- 2022 WE SHOULD PLAN TO HAVE LUNCH SOMEWHERE TOGETHER in Gainesville -OPERATIONS . 	
13:00	COME BACK AND GET EVERYTHING READY!	

INCIDENT BRIEFING (ICS 201)

1. Incident Name: NFARC Field Day 2022	2. Incident Number: 005	3. Date/Time Initiated: Date: Time:
BEGINNING 2 PM SATURDAY	<p style="text-align: center;">FIELD DAY CONTACTS BY PARTICIPANTS</p> <ul style="list-style-type: none"><input type="checkbox"/> INCIDENT COMMAND POST AT ADMIN BLDG WITH COMPUTER LOGGING MONITORING TO AVOID US MISSING POINTS ETC. <input type="checkbox"/> PARTICIPANTS: Operators work in pairs whenever possible (Operator and Logger) making and logging (QSO's) contacts to other radio clubs participating in the 2022 ARRL Field Day event; however our FT8 software does not require a separate logger <input type="checkbox"/> OPERATIONS may wish to arrange and publish a schedule of signups for operating. <input type="checkbox"/> We will try to make the FT8 log automatically. You will probably need to log PSK31, RTTY, CW, or SSB contacts using the logging computer yourself. <input type="checkbox"/> Keep it to two transmitters that "count" maximum at all times. One VHF and One Satellite radio are "free" "Groups are allowed one dedicated satellite transmitter station without increasing their entry category" <input type="checkbox"/> We may use cell phones, or FRS radios, or VOIP phones to talk between the two stations, depending on what works. You can also see what band the other station is operating on via the Logging Software -- be careful to set this properly! <input type="checkbox"/> OPERATIONS: Participants Check-In at INCIDENT COMMAND ADMIN BLDG.	
	<p style="text-align: center;">BONUS POINT EFFORTS AND DOCUMENTATION</p> <p style="text-align: center;">SAFETY OFFICER</p> <ul style="list-style-type: none"><input type="checkbox"/> SAFETY OFFICER: Carry out reviews of safety techniques and fill out the Safety Check List -- write at the bottom that you carried it out and sign it, take photo, and send as PDF document to DOCUMENTATION <p>THIS FORM IS ENCLOSED IN THIS PACKET BEFORE THE OFFICIAL FIELD DAY RULES.</p> <p>NOTE; CLASS F STATIONS MAY BE UNABLE TO RECEIVE CREDIT FOR THIS, BUT IT IS A GOOD IDEA ANYWAY.</p> <p>ARRL RULE: 7.3.17 Safety Officer Bonus: A 100-point bonus may be earned by having a person serving as a Safety Officer for those groups setting up Class A stations. This person must verify that all safety concerns on the Safety Check List (found in the ARRL Field Day Packet) have been adequately met. This is an active bonus – simply designating someone as Safety Officer does not automatically earn this bonus. A statement verifying the completion of the Safety Check List must be included in the supporting documentation sent to ARRL HQ in order to claim this bonus.</p>	

INCIDENT BRIEFING (ICS 201)

1. Incident Name: NFARC Field Day 2022	2. Incident Number: 005	3. Date/Time Initiated: Date: Time:
---	----------------------------	---

BONUS POINT EFFORTS AND DOCUMENTATION OPERATIONS

OPERATIONS: SUGGEST 1600 HOURS -- CAPTURE AT LEAST FIVE CONTACTS WITH NEWLY CHARGED SOLAR BATTERIES WHILE THERE ARE LOTS OF CONTACTS BEING MADE. THESE MUST BE KEPT IDENTIFIED AS SOLAR POWERED CONTACTS AND DOCUMENTATION SENT TO DOCUMENTATION UNIT.

OPERATIONS: SUGGEST 7 PM RADIOGRAM TO SM OR SEC: [ORIGINATED BY NF4AC] (BONUS POINTS) OPERATIONS to perform and document (by copy of radiogram) origination of a formal message to the ARRL Section Manager or Section Emergency Coordinator by your group from its site. You should include the club name, number of participants, Field Day location, and number of ARES operators involved with your station. **The message must be transmitted during the Field Day period and a copy of it must be included in your submission in standard ARRL radiogram or no credit will be given. The message must leave or enter the Field Day operation via amateur radio RF.** Documentation by sending a copy also to **DOCUMENTATION (at the email address listed above)** . Note: these may be easiest to do on VHF digital from the "free" vhf station, USING THE EOC VHF DATA TRANSCEIVERS FOR THAT PURPOSE. Consider using Earl's or Gordon's gateway See: <https://qsl.net/nf4rc/2021/SectionManagerMessage.pdf>

OPERATIONS TEN RADIOGRAMS SENT FROM THE FIELD DAY SITE: [ORIGINATED BY NF4AC] SUGGEST 7 PM

TEXT OF ARRL RULE: BONUS POINTS **Message Handling: 10 points for each formal message originated, relayed or received and delivered during the Field Day period, up to a maximum of 100 points (ten messages). Copies of each message must be included with the Field Day report. The message to the ARRL SM or SEC under Rule 7.3.5. does not count towards the total of 10 for this bonus. Available to all Classes. All messages claimed for bonus points must leave or enter the Field Day operation via amateur radio RF.**

OPERATIONS: SEND COPIES TO DOCUMENTATION--INCLUDING TEXT OF EVERY RADIOGRAM!!! THESE MAY BE COPIED VIA WINLINK TO DOCUMENTATION UNIT EMAIL

SATURDAY

INCIDENT BRIEFING (ICS 201)

1. Incident Name: NFARC Field Day 2022	2. Incident Number: 005	3. Date/Time Initiated: Date: _____ Time: _____
SATURDAY/ SUNDAY	<h3 style="text-align: center;">BONUS POINT EFFORTS AND DOCUMENTATION</h3> <h4 style="text-align: center;">PIO</h4> <p> <input type="checkbox"/> PIO (BONUS POINTS) is to invite at LEAST ONE ELECTED GOVERNMENT OFFICIAL (recommend all County and City Commissioners & Sheriff) and document both the invite and the visit with a FILE including a photo or written statement, send to DOCUMENTATION with an appropriate subject line. Encouraged to mentor up and coming PIO members by involving them in this processing Elected Officials include SHERIFF, CITY AND COUNTY COMMISSIONERS </p> <p> <input type="checkbox"/> PIO (BONUS POINTS) to invite REPRESENTATIVE OF AN AGENCY served by ARES and document with copy of invitation / photo or suitable substitute in one file sent to PLANNING SECTION. AGENCIES SERVED INCLUDE EMERGENCY MANAGEMENT (e.g. Dalton Herding), possibly Red Cross and Florida Baptist Disaster Relief </p> <p> PDF Documents: https://qsl.net/nf4rc/2021/PublicLocationBonusPoints.pdf https://qsl.net/nf4rc/2021/PublicInformationTableBonusPoints.pdf https://qsl.net/nf4rc/2021/ElectedOfficialBonusPoints.pdf https://qsl.net/nf4rc/2021/AgencyRepresentativeBonusPoints.pdf </p> <p> ODT Documents: https://qsl.net/nf4rc/2021/PublicLocationBonusPoints.odt https://qsl.net/nf4rc/2021/PublicInformationTableBonusPoints.odt https://qsl.net/nf4rc/2021/ElectedOfficialBonusPoints.odt https://qsl.net/nf4rc/2021/AgencyRepresentativeBonusPoints.odt </p>	
14:00 – 00:00	<h3 style="text-align: center;">BONUS POINT EFFORTS AND DOCUMENTATION</h3> <h4 style="text-align: center;">SATELLITE UNIT OF OPERATIONS</h4> <p> <input type="checkbox"/> OPERATIONS: SATELLITE: BONUS POINTS Satellite QSO: 100 bonus points for successfully completing at least one QSO via an amateur radio satellite during the Field Day period. "General Rules for All ARRL Contests" (Rule 3.7.2.), (the no-repeater QSO stipulation) is waived for satellite QSOs. Groups are allowed one dedicated satellite transmitter station without increasing their entry category. Satellite QSOs also count for regular QSO credit. Show them listed separately on the summary sheet as a separate "band." You do not receive an additional bonus for contacting different satellites, though the additional QSOs may be counted for QSO credit unless prohibited under Rule 7.3.7.1. The QSO must be between two Earth stations through a satellite. Available to Classes A, B, and F. 7.3.7.1 Stations are limited to one (1) completed QSO on any single channel FM satellite. OPERATIONS to have this accomplished and documented by having appropriately documented LOG ENTRIES sent to DOCUMENTATION. The group is encouraged to make this a teaching moment! </p> <p> PDF: https://qsl.net/nf4rc/2021/SatelliteQSOBonusPoints.pdf ODT: https://qsl.net/nf4rc/2021/SatelliteQSOBonusPoints.odt </p>	
WEE HOURS	<input type="checkbox"/> Operation in the middle of the night is at the discretion of Operations based on available volunteer. We may be having so much fun that we can't stop these people! I suggest that representatives from the General Staff meet and assess operations of the stations (a) within the first few hours; (b) in the evening, to determine overnight options. (Suggestion only).

INCIDENT BRIEFING (ICS 201)

APPENDIX ONE

ARRL Field Day Safety Officer Checklist

To qualify for the 100-point Safety Officer bonus (for Class A stations), a group must appoint a qualified person/s who are present at their site from the beginning of set-up until the end of break-down.

This form is NOT intended to be all inclusive.

The Safety Officer/s certify by submitting this form that due diligence was made to provide a safe operation.

[check (or circle) any/all that apply]

- Safety Officer/s or qualified designated assistant/s was on site for the duration of the event.
- Fuel for generator properly stored.
- Fire extinguisher on hand and appropriately located. First Aid kit on hand.
- First Aid - CPR - AED versed else trained participant/s on site for full Field Day period.
- Access to NWS alerts to monitor for inclement weather.
- Tent stakes properly installed and marked.
- Temporary antenna structures properly secured and marked.
- Site secured from tripping hazards.
- Site is set up in a neat and orderly manner to reduce hazards.
- Stations and equipment properly grounded.
- Access to a means to contact police/fire/rescue if needed.
- Safety Officer is designated point of contact for public safety officials.
- Minimize risks and control hazards to ensure no injuries to public.
- As necessary, monitoring participants for hydration and ensuring an adequate water supply is available.

Revised 3/2021

INCIDENT BRIEFING (ICS 201)

APPENDIX TWO

MEASURED ANTENNA INTERACTIONS 2020 EOC FIELD DAY Likely that San Felasco Interactions will be only slightly greater

Power level in dBm sent to the EOC Chigger antenna on each band was known, the power level in dBm received on the End Fed multiband antenna approx 25-30 feet height was measured at the NW Grassy corner, and the total path loss was calculated by subtracting.

Measured Antenna Interactions	
80 meters	-70 dB
40 meters	-80 dB
20 meters	-100 dB

For example, if +50 dBm were transmitted at the EOC (100 Watts output), the received signal at the receiver terminals on the SAME FREQUENCY on 80 meters would be $50\text{dBm} - 70\text{ dB} = -20\text{dBm}$

That results in a 22 millivolt RMS signal on a 50 ohm connection, which is a very loud signal (52 dB above S9 on a typical receiver) but it is nowhere close to a voltage necessary to even cause a diode to conduct (0.6 V) much less do any damage to an input device.

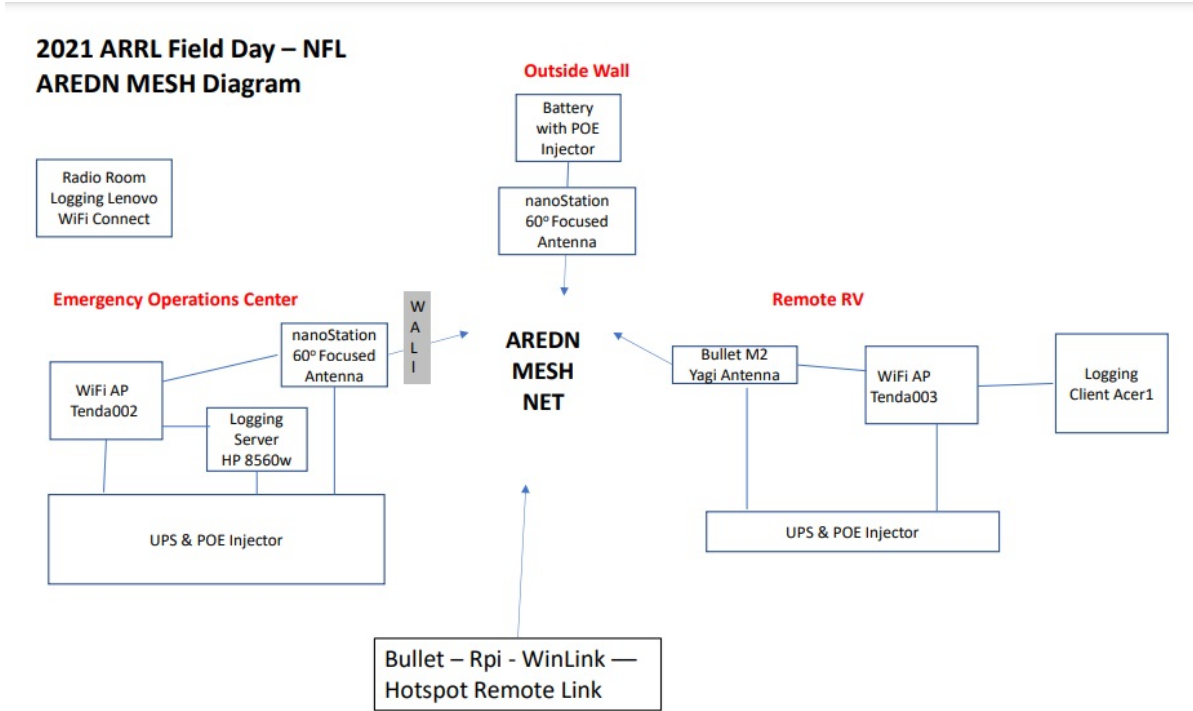

We also tested listening on the 2nd harmonic band, to a transmitter on the band below at the opposite station, using the bandpass filters, and could hear NO DESENSING of the radio.

INCIDENT BRIEFING (ICS 201)

APPENDIX THREE -- Microwave System 2020/2022

NF4AC Field Day Contest Log Registration #: **33532**

LIKELY That our AREDN MESH system will operate with merely two transceivers and no need for the intermediate relay station at San Felasco. Power can be obtained from the associated station's power.

Selected material lifted from Earl McDow's Excellent 2020 Document on the Logging system and from the 2020 AAR/IP. Certain security details are left out here for protection.

LOCATION	UNIT / FUNCTION	Notes
EOC	Tenda002 -- wifi access point to allow EOC logging on Part 15 WIFI to connect. Connects by ethernet cable to KX4Z-002 which provides the IP numbers.	Power: uninterruptible power suply, AC from extension cord within EOC
	KX4Z-002 AREDN Channel -2 beams thru wall. Acts as a 13-host router, DHCP server	Power: uninterruptible power suply, AC from extension cord within EOC

APPENDIX FOUR: FIELD DAY DIAGRAM 2021

2022 will be similar but EOC is replaced by Quonset Hut and amplifiers are no longer necessary.

INCIDENT BRIEFING (ICS 201)

INCIDENT BRIEFING (ICS 201)

4. Possible HF Antennas

•

STATION ONE: Off center fed dipole has 1-2 dB lower loss than End Fed Half Wave, so preferred. One end pulled up by rope to the MARC UNIT Tower. Center Support may be required using available vegetation or roll-on 18 foot mast. Based on available structures, vegetation, operations unit may determine exact direction.

STATION TWO: Off Center fed dipole, Using available 30-foot mast on RV Trailer + Available trees as supports.

VHF ANTENNA: YAGI and/ or Vertical supported by MARC UNIT Mast. Locate thicker coax to reach this antenna.

INCIDENT BRIEFING (ICS 201)

APPENDIX SIX: Field Day Rules 2022 (Downloaded 4/26/2021)

from: <http://www.arrl.org/files/file/Field-Day/2021/2021%20Field%20Day%20Packet.pdf> Updated 4/14/2022 by line by line comparison.

Rule Changes for ARRL Field Day 2022:

- All Field Day stations are limited to a maximum 100 watts Peak Envelope Power (PEP) transmitter output, regardless of operating class.
- Class D stations can contact any other station for QSO points.
- Media Publicity bonus point criteria have changed (see 7.3.2).
- Individual stations can contribute their scores to an aggregate score of their club by supplying the club's name on the entry form at time of entry.

1. **Eligibility:** Field Day is open to all amateurs in the areas covered by the ARRL/RAC Field Organizations and countries within IARU Region 2. DX stations residing in other regions may be contacted for credit and may submit entries as check-logs.

2. **Object:** To work as many stations as possible on the 160, 80, 40, 20, 15 and 10 Meter HF bands, as well as all bands 50 MHz and above, and in doing so to learn to operate in abnormal situations in less than optimal conditions. A premium is placed on developing skills to meet the challenges of emergency preparedness as well as to acquaint the general public with the capabilities of Amateur Radio.

3. **Date and Time Period: Field Day 2021 will be held June 25-26.** Field Day is ALWAYS the fourth full weekend of June, beginning at 1800 UTC Saturday and ending at 2059 UTC Sunday.

3.1. Class A and B (see below) stations that do not begin setting up until 1800 UTC on Saturday may operate the entire 27-hour Field Day period.

3.2. Stations who begin setting up before 1800 UTC Saturday may work only 24 consecutive hours, commencing when on-the-air operations begin.

3.3. No class A or B station may begin its set-up earlier than 0000 UTC on the Friday (Thursday afternoon or evening local time) preceding the Field Day period. Cumulative set-up time shall not exceed a total of 24 hours.

4. **Entry Categories:** Field Day entries are classified according to the maximum number of *simultaneously* transmitted signals, followed by a designator indicating the nature of their individual or group participation. The minimum number of transmitters that must be claimed is one (1). Twenty (20) transmitters maximum are eligible for the purpose of calculating bonus points (2,000 points maximum). However, additional transmitters which may legitimately be used simultaneously will determine your entry category classification, but will not earn additional bonus points (i.e. 22 transmitters = 22A). The use of switching systems that allow for lock-outs in order to use multiple transmitters (i.e., an "octopus") in an attempt to enter a lower-number-of-transmitters class are prohibited (i.e. using 2 transmitters that can transmit simultaneously, with two operators, and a lock-out system and entering class 1A). The use of simulcasting devices which allow a single operator to key and transmit on more than one transmitter at a time, is prohibited. **Bonus stations, such as the GOTA station and satellite station do not count towards determining the number of transmitters for the class and do not qualify for transmitter bonus points.**

4.1. (Class A) Club / non-club portable: Club or a non-club group of three or more persons set up specifically for Field Day. Such stations must be located in places that are not regular station locations and must not use facilities installed for permanent station use, or use any structure installed permanently for Field Day. A single licensee or trustee for the entry is responsible for the group entry. All equipment (including antennas) must lie within a circle whose diameter does not exceed 300 meters (1000 feet). To be listed as Class A, all contacts must be made with transmitter(s) and receiver(s) operating independent of commercial power mains. Entrants whom for any reason operate a transmitter or receiver from a commercial main for one or more contacts will be listed separately as Class A-Commercial. **Class A stations are limited to 100 W Peak**

INCIDENT BRIEFING (ICS 201)

Envelope Power (PEP) transmitter output.

4.1.1. Get-On-The-Air (GOTA) Station. Any Class A (or F) entry whose transmitter classification is two or more transmitters may also operate one additional station without changing its base entry category, known as the GET-ON-THE-AIR (GOTA) station. **This GOTA station may operate on any Field Day band, HF or VHF, but is limited to one GOTA station transmitted signal at any time.**

4.1.1.1. This station must use a different callsign from the primary Field Day station. The GOTA station must use the same callsign for the duration of the event regardless if operators change. **The GOTA station uses the same exchange as its parent.**

4.1.1.2. The GOTA station may be operated by any person licensed since the previous year's Field Day, regardless of license class. It may also be operated by a generally inactive licensee. Non-licensed persons may participate under the direct supervision of an appropriate control operator. A list of operators and participants must be included on the required summary sheet to ARRL HQ.

4.1.1.3. As per FCC rules, this station must have a valid control operator present at the control point if operating beyond the license privileges of the participant using the station.

4.1.1.4. The maximum transmitter output power for the GOTA station shall be **100 watts**. If the primary Field Day group is claiming the QRP multiplier level of 5, the maximum transmitter output power of the GOTA station may not exceed 5 watts.

4.1.1.5. A maximum of 1000 QSOs made by this station may be claimed for credit by its primary Field Day operation. In addition, bonus points may be earned by this station under rule 7.3.13.

4.1.1.6. The GOTA station may operate on any Field Day band. Only one transmitted signal is allowed from the GOTA station at any time.

4.1.1.7. The GOTA station does not affect the additional VHF/UHF station provided for under Field Day Rule 4.1.2. for Class A stations.

4.1.1.8. Participants are reminded that non-licensed participants working under the direction of a valid control operator may only communicate with other W/VE stations or with stations in countries with which the US has entered a third-party agreement.

4.1.1.9. The GOTA station does not qualify as an additional transmitter when determining the number of transmitters eligible for the 100-point emergency power bonus under Rule 7.3.1.

4.1.2. Free VHF Station: All Class A entries may also operate one additional transmitter if it operates exclusively on any band or combination of bands above 50 MHz (VHF/UHF) without changing its basic entry classification. This station does not qualify for a 100-point bonus as an additional transmitter. This station may be operated for the clubs Field Day period and all contacts count for QSO credit. It is operated using the primary callsign and exchange of the main Field Day group and is separate and distinct from the GOTA station.

4.2. (Class A - Battery) Club / non-club portable: Club or non-club group of three or more persons set up specifically for Field Day. All contacts must be made using an output power of 5 Watts or less and the power source must be something other than commercial power mains or motor-driven generator (e.g.: batteries, solar cells, water driven generator). Other provisions are the same for regular Class A. Class AB is eligible for a GOTA station if GOTA requirements are met; however if a GOTA station is used in this class it must meet the 5-Watt or less power requirement of this category.

4.3. (Class B) One or two person portable: A Field Day station set up and operated by no more than two persons. Other provisions are the same for Class A except it is not eligible for a GOTA or free VHF station. One

INCIDENT BRIEFING (ICS 201)

and two person Class B entries will be listed separately. Class B stations are limited to 100 W Peak Envelope Power (PEP) transmitter output.

4.4. (Class B - Battery) One or two person portable: A Field Day station set up and operated by no more than two persons. All contacts must be made using an output power of 5 Watts or less and the power source must be something other than commercial mains or motor-driven generator. Other provisions are the same for Class A except it is not eligible for a GOTA or free VHF station. One and two person Class B - Battery entries will be listed separately.

4.5. (Class C) Mobile: Stations in vehicles capable of operating while in motion and normally operated in this manner. This includes maritime and aeronautical mobile. If the Class C station is being powered from a car battery or alternator, it qualifies for emergency power but does not qualify for the multiplier of 5, as the alternator/battery system constitutes a motor-driven generating system. Class C stations are limited to 100 W Peak Envelope Power (PEP) transmitter output.

4.6. (Class D) Home stations: Stations operating from permanent or licensed station locations using commercial power. NEW For 2022: Class D may work all Field Day stations. Class D stations are limited to 100 W Peak Envelope Power (PEP) transmitter output.

4.7. (Class E) Home stations - Emergency power: Same as Class D, but using emergency power for transmitters and receivers. Class E may work all Field Day stations. See 2021 power limitation above.

4.8. (Class F) Emergency Operations Centers (EOC): An amateur radio station at an established EOC activated by a club or non-club group. Class F operation must take place at an established EOC site. Stations may utilize equipment and antennas temporarily or permanently installed at the EOC for the event. Entries will be reported according to number of transmitters in simultaneous operation. Class F stations are eligible for a free VHF station. At Class 2F they are also eligible for a GOTA station. Class F stations are limited to 100 W Peak Envelope Power (PEP) transmitter output.

4.8.1. For Field Day purposes, an Emergency Operations Center (EOC) is defined as a facility established by: a) a Federal, State, County, City or other Civil Government, agency or administrative entity; or, b) a Chapter of a national or international served agency (such as American Red Cross or Salvation Army) with which your local group has an established operating arrangement;

4.8.1.1. A private company EOC does not qualify for Class F status unless approved by the ARRL Field Day Manager.

4.8.2. Planning of a Class F operation must take place in conjunction and cooperation with the staff of the EOC being activated.

4.8.3. Other provisions not covered are the same as Class A.

4.8.4. A Class F station may claim the emergency power bonus if emergency power is available at the EOC site.

4.8.4.1. The emergency power source must be tested during the Field Day period but you are not required to run the Class F operation under emergency power.

5. Exchange: Stations in ARRL / RAC sections will exchange their Field Day operating Class and ARRL / RAC section. Example: a three transmitter Class A station in Connecticut which also has a GOTA station and the extra VHF station would send "3A CT" on CW or Digital, or "3 Alpha Connecticut" on Phone. **DX stations** send operating class and the term DX (i.e. 2A DX).

6. Miscellaneous Rules:

6.1. A person may not contact for QSO credit any station from which they also participate.

INCIDENT BRIEFING (ICS 201)

- 6.2. A transmitter/receiver/transceiver used to contact one or more Field Day stations may not subsequently be used under any other callsign to participate in Field Day. Family stations are exempt provided the subsequent callsign used is issued to and used by a different family member.
- 6.3. Field Day contacts are allowed using Phone, CW and Digital (non-CW) modes. Stations can be worked once per band per mode under this rule.
- 6.4. All voice contacts are equivalent.
- 6.5. All non-CW digital contacts are equivalent.
- 6.6. Cross-band contacts are not permitted (Satellite QSOs cross-band contacts are exempted).
- 6.7. The use of more than one transmitter at the same time on a single band-mode is prohibited. Exception: a dedicated GOTA station may operate as prescribed in Rule 4.1.
- 6.8. No repeater contacts are allowed.
- 6.9. Batteries may be charged while in use. Except for Class D stations, the batteries must be charged from a power source other than commercial power mains. To claim the power multiplier of five, the batteries must be charged from something other than a motor driven generator or commercial mains.
- 6.10. All stations for a single entry must be operated under one callsign, except when a dedicated GOTA station is operated as provided under Field Day Rule 4.1.1. it uses a single, separate callsign.

7. Scoring: Scores are based on the total number of QSO points times the power multiplier corresponding to the highest power level under which any contact was made during the Field Day period plus the bonus points.

Aggregate Club Score: An aggregate club score will also be published, which will be the sum of all individual entries indicating a specific club (similar to the aggregate score totals used in ARRL affiliated club competitions). Participants from any Class can optionally include a single club name with their submitted results following Field Day. For example, if Podunk Hollow Radio Club members Becky, WIBXY, and Hiram, W1AW, both participate in 2021 Field Day -- Hiram from his Class D home station, and Becky from her Class C mobile station -- both can include the radio club's name when reporting their individual results. The published results listing will include individual scores for Hiram and Becky, plus a combined score for all entries identified as Podunk Hollow Radio Club.

7.1. QSO Points:

- 7.1.1. Phone contacts count one point each.
- 7.1.2. CW contacts count two points each.
- 7.1.3. Digital contacts count two points each.

7.2. Power multipliers: The power multiplier that applies is determined by the highest power output of any of the transmitters used during the Field Day operation.

- 7.2.1. If all contacts are made using a power of 5 Watts or less and if a power source other than commercial mains or motor-driven generator is used (batteries, solar cells, water-driven generator), the power multiplier is 5 (five).
- 7.2.2. If all contacts are made using a power of 5 Watts or less, but the power source is from a commercial main or from a motor-driven generator, the power multiplier is 2. If batteries are charged during the Field Day period using commercial mains or a motor-driven generator the power multiplier is 2 (two).
- 7.2.3. If any or all contacts are made using an output power up to 100 Watts or less, the power multiplier is 2 (two).
- 7.2.4. NEW for 2022: Power output cannot exceed 100 watts Peak Envelope Power (PEP) transmitter output.

INCIDENT BRIEFING (ICS 201)

7.2.5. The power multiplier for an entry is determined by the maximum output power used by any transmitter used to complete any contact during the event. (Example: a group has one QRP station running 3 Watts and a second station running 100 Watts, the power multiplier of 2 applies to all contacts made by the entire operation).

7.3. Bonus Points: All stations are eligible for certain bonus points, depending on their entry class. The following bonus points will be added to the score, after the multiplier is applied, to determine the final Field Day score. Bonus points will be applied only when the claim is made on the summary sheet and any proof required accompanies the entry or is received via email or normal mail delivery.

7.3.1. 100% Emergency Power: 100 points per transmitter classification if all contacts are made only using an emergency power source up to a total of 20 transmitters (maximum 2,000 points.) GOTA station and free VHF Station for Class A and F entries do not qualify for bonus point credit and should not be included in the club's transmitter total. All transmitting equipment at the site must operate from a power source completely independent of the commercial power mains to qualify. (Example: a club operating 3 transmitters plus a GOTA station and using 100% emergency power receives 300 bonus points.) Available to Classes A, B, C, E, and F.

7.3.2. Media Publicity: UPDATED for 2022: 100 bonus points may be earned for obtaining publicity from the local media. A copy of the actual media publicity received (newspaper article, etc.) must be submitted to claim the points. Any combination of bona fide media hits would qualify for the bonus points. For example, posting the details of your upcoming or ongoing Field Day activity, or your Field Day results, on a club or news media site, on Facebook, or via Twitter and Instagram would meet the bonus criteria. Available to all Classes.

7.3.3. Public Location: 100 bonus points for physically locating the Field Day operation in a public place (i.e. shopping center, park, school campus, etc). The intent is for amateur radio to be on display to the public. Available to Classes A, B and F.

7.3.4. Public Information Table: 100 bonus points for a Public Information Table at the Field Day site. The purpose is to make appropriate handouts and information available to the visiting public at the site. A copy of a visitor's log, copies of club handouts or photos is sufficient evidence for claiming this bonus. Available to Classes A, B and F.

7.3.5. Message Origination to Section Manager: 100 bonus points for origination of a formal message to the ARRL Section Manager or Section Emergency Coordinator by your group from its site. You should include the club name, number of participants, Field Day location, and number of ARES operators involved with your station. The message must be transmitted during the Field Day period and a copy of it must be included in your submission in standard ARRL radiogram or no credit will be given. The message must leave or enter the Field Day operation via amateur radio RF. The Section Manager message is separate from the messages handled in Rule 7.3.6. and may not be claimed for bonus points under that rule. Available to all Classes.

7.3.6. Message Handling: 10 points for each formal message originated, relayed or received and delivered during the Field Day period, up to a maximum of 100 points (ten messages). Copies of each message must be included with the Field Day report. The message to the ARRL SM or SEC under Rule 7.3.5. does not count towards the total of 10 for this bonus. Available to all Classes. **All messages claimed for bonus points must leave or enter the Field Day operation via amateur radio RF.**

7.3.7. Satellite QSO: 100 bonus points for successfully completing at least one QSO via an amateur radio satellite during the Field Day period. "General Rules for All ARRL Contests" (Rule 3.7.2.), (the no-repeater QSO stipulation) is waived for satellite QSOs. Groups are allowed one dedicated satellite transmitter station without increasing their entry category. Satellite QSOs also count for regular QSO credit. Show them listed separately on the summary sheet as a separate "band." You do not receive an additional bonus for contacting different satellites, though the additional QSOs may be counted for QSO

INCIDENT BRIEFING (ICS 201)

credit unless prohibited under Rule 7.3.7.1. The QSO must be between two Earth stations through a satellite. Available to Classes A, B, and F.

7.3.7.1 Stations are limited to one (1) completed QSO on any single channel FM satellite.

7.3.8. Alternate Power: 100 bonus points for Field Day groups making a minimum of five QSOs without using power from commercial mains or petroleum driven generator. This means an "alternate" energy source of power, such as solar, wind, methane or water. This includes batteries charged by natural means (not dry cells). The natural power transmitter counts as an additional transmitter. If you do not wish to increase your operating category, you should take one of your other transmitters off the air while the natural power transmitter is in operation. **A separate list of natural power QSOs should be submitted with your entry [emphasis added].** Available to Classes A, B, E, and F.

7.3.9. W1AW Bulletin: 100 bonus points for copying the special Field Day bulletin transmitted by W1AW (or K6KPH) during its operating schedule during the Field Day weekend (listed in this rules announcement). An accurate copy of the message is required to be included in your Field Day submission. (Note: The Field Day bulletin must be copied via amateur radio. It will not be included in Internet bulletins sent out from Headquarters and will not be posted to Internet BBS sites.) Available to all Classes.

7.3.10. Educational activity bonus: One (1) 100-point bonus may be claimed if your Field Day operation includes a specific educational-related activity. The activity can be diverse and must be related to amateur radio. It must be some type of formal activity. It can be repeated during the Field Day period but only one bonus is earned. For more information consult the FAQ in the complete Field Day packet. Available to Classes A & F entries and available clubs or groups operating from a club station in class D and E with 3 or more participants.

7.3.11. Site Visitation by an elected governmental official: One (1) 100-point bonus may be claimed if your Field Day site is visited by an elected government official as the result of an invitation issued by your group. Available to all Classes.

7.3.12. Site Visitation by a representative of an agency: One (1) 100-point bonus may be claimed if your Field Day site is visited by a representative of an agency served by ARES in your local community (American Red Cross, Salvation Army, local Emergency Management, law enforcement, etc.) as the result of an invitation issued by your group. ARRL officials (SM, SEC, DEC, EC, etc) do not qualify for this bonus. Available to all Classes.

7.3.13. GOTA Bonus. Class A and F stations operating a GOTA station may earn the following bonus points:

7.3.13.1. When a GOTA operator successfully completes 20 QSOs, they receive 20 bonus points. Upon reaching an additional 20 QSOs the same operator receives a second 20 bonus points, up to a maximum of 100 Bonus points per GOTA operator. An operator may make more than 100 QSOs but the QSOs over 100 do not qualify for an additional bonus.

7.3.13.1.1. Additional GOTA operators may earn the GOTA bonus points under this rule, up to the maximum of 500 bonus points. (Remember that there is a 1000-QSO limit for the GOTA station. But no single GOTA operator may earn more than 100 of the GOTA bonus points except as provided in 7.3.13.2.)

7.3.13.1.2. A single GOTA operator must complete all 20 QSOs required before the bonus is earned. There is no "partial credit" for making only a portion of the 20 QSOs or "pooling" QSOs between operators.

7.3.13.2. If a GOTA station is supervised full-time by a GOTA Coach, the bonus points earned for each 20 QSOs completed under Rule 7.3.13.1. will be doubled.

INCIDENT BRIEFING (ICS 201)

7.3.13.2.1. The GOTA Coach supervises the operator of the station, doing such things as answering questions and talking them through contacts, but may not make QSOs or perform logging functions.

7.3.13.2.2. To qualify for this bonus, there must be a designated GOTA Coach present and supervising the GOTA station at all times it is being operated.

7.3.14. Web submission: A 50-point bonus may be claimed by a group submitting their Field Day entry via [thehttps://field-day.arrl.org/fdentry.php](https://field-day.arrl.org/fdentry.php) web app. Available to all Classes.

7.3.15. Field Day Youth Participation:

7.3.15.1. A 20-point bonus (maximum of 100) may be earned by any Class A, C, D, E, or F group for each participant age 18 or younger at your Field Day operation that completes at least one QSO.

7.3.15.2. For a 1-person Class B station, a 20-point bonus is earned if the operator is age 18 or younger. For a 2-person Class B station, a 20-point bonus is earned for each operator age 18 or younger (maximum of 40 points.) Keep in mind that Class B is only a 1 or 2 person operation. This bonus does not allow the total number of participants in Class B to exceed 1 or 2.

7.3.16 Social Media: 100 points for promoting your Field Day activation to the general public via an active, recognized and utilized social media platform (Facebook, Twitter, Instagram, etc). This bonus is available to bona fide Amateur Radio clubs and Field Day groups that welcome visitors to their operation. Individual participants do not qualify for this bonus. Club websites do not qualify for this bonus. Available to all classes.

7.3.17 Safety Officer Bonus: A 100-point bonus may be earned by having a person serving as a Safety Officer for those groups setting up Class A stations. This person must verify that all safety concerns on the Safety Check List (found in the ARRL Field Day Packet) have been adequately met. This is an active bonus – simply designating someone as Safety Officer does not automatically earn this bonus. A statement verifying the completion of the Safety Check List must be included in the supporting documentation sent to ARRL HQ in order to claim this bonus. Available to Class A entries only.

8. Reporting:

8.1. Entries may be submitted to the ARRL via:

8.1.1. Field Day Web App at <https://field-day.arrl.org/fdentry.php> or

8.1.2. USPS or other delivery service to (tracking highly recommended): Field Day Entries, 225 Main St, Newington, CT 06111.

8.2. Entries must be postmarked or submitted by Tuesday July 26, 2022. . Late entries cannot be accepted.

8.3. A complete Field Day Web Applet Submission site entry consists of:

8.3.1. An official ARRL summary sheet which is completed via web app at <https://fieldday.arrl.org/fdentry.php>;

8.3.2. Supporting information uploaded via web app. Supporting information must include:

8.3.2.1. An attached list of stations worked by band/mode during the Field Day period (dupe sheet or an alpha/numeric list sorted by band and mode – a Cabrillo log can be submitted in lieu of a Dupe Sheet/Calls list by band/mode); and

INCIDENT BRIEFING (ICS 201)

8.3.2.2. Proof of all bonus points claimed (copies of visitor logs, press releases, NTS messages handled, photographs, etc).

8.3.2.3 The web app will display a confirmation number and email a confirmation of your Field Day entry to the email address entered via the app. Please be sure to record this confirmation number and/or save the confirmation email.

8.4 While the preferred method of submitting entries is via the Web Applet, entries and/or supporting documentation may alternately be submitted via email to fieldday@arrl.org. A complete non-web-app email submission consists of:

8.4.1. An electronic copy of an ARRL summary sheet completely and accurately filled out;

8.4.2. An attached list of stations worked by band/mode during the Field Day period (dupe sheet or an alpha/numeric list sorted by band and mode); and

8.4.3. Proofs of bonus points claimed (copies of visitor logs, press releases, NTS messages handled, photographs, etc).

8.5. A complete land/postal-mail or delivery non-electronic submission consists of:

8.5.1. A complete and accurate ARRL summary sheet;

8.5.2. An accompanying list of stations worked by band/mode during the Field Day period (dupe sheet or an alpha/numeric list sorted by band and mode); and 8.5.3. Proofs of bonus points claimed (copies of visitor logs, press releases, NTS messages handled, photographs, etc).

8.6. Complete station logs are NOT required for submission, and ARRL does not use the logs. The club should maintain log files for one year in case they are requested by ARRL HQ. However, a list of stations worked sorted by band and mode (dupe sheet) is required.

8.7. Cabrillo format log files are NOT required for Field Day entries, but they will be accepted in lieu of the dupe sheets (but do not constitute an entry unless the web app (or a corresponding summary sheet with complete mailed entry) is also submitted.

8.8. Digital images of proof of bonus points are acceptable.

8.9. Electronic submissions are considered signed when submitted.

9. Miscellaneous:

9.1. The schedule of bulletin times for W1AW is included in this announcement. While W1AW does not have regular bulletins on weekends, the Field Day message will be sent according to the schedule included with this announcement. The W1AW bulletins will be transmitted on the regular W1AW frequencies listed in QST. The PSK31 bulletin will be transmitted on the W1AW teleprinter frequencies. The special Field Day bulletin will be transmitted from station K6KPH on the West Coast as included in the bulletin schedule.

9.2. See "General Rules for All ARRL Contests," "General Rules for All ARRL Contests on Bands Below 30 MHz," and "General Rules for All ARRL Contests on Bands Above 50 MHz" for additional rules (www.arrl.org/contest-rules) that may cover situations not covered in these Field Day rules. Decisions of the ARRL Awards Committee are final in adjudicating Field Day problems.

9.3. The complete Field Day information package may be obtained by: 9.3.1. Sending a SASE with 5 units of postage to: Field Day Information Package, ARRL, 225 Main St., Newington, CT 06111; or 9.3.2. By downloading from the Field Day home page at: www.arrl.org/field-day 9.4. For more Field Day information/questions contact: fdinfo@arrl.org or phone (860) 594-0232
