Date 2-28-95

This letter is to verify your reception report of receiving programs of the World Voice of Historic Adventism (WVHA) as transmitted via WVHA in Greenbush, Maine, the United States of America.

02-06-95    0145    7465KHZ    44444  
Date            Time, UTC            Frequency            S I N P O

Comments \_\_\_\_\_

Enclosed is a night-time picture of the WVHA station showing all of its 11 to 22 MHz antenna and part of its 6-12 MHz antenna (4x4x1 curtains). These have a peak gain of 23 db which is 200 times the input power. The transmitter is an ABB (Thomcast) 500 KW unit which gives a maximum effective radiated power of 100 million watts.

Enclosed is a copy of our latest schedule. We will be adding more hours of broadcasting. Therefore I have also enclosed a copy of our full frequency authorizations.

Thank you for your report. We are looking for volunteer monitors. If you should be interested in regularly reporting reception conditions on this one program or on any more of our frequencies and times, please let me know.

Sincerely Yours,  
*David L. Evans*
